Friday Abstinence From Meat Is Ending For American Catholics

WASHINGTON (AP)—U. S. Roman Catholics now must decide for themselves whether to eat meat on Fridays.

But if they decide to discontinue the 1,000-year-old tradition of Friday abstinence, they are urged strongly by their bishops to substitute some other form of voluntary penance.

In an historic decree announced Friday night, the National Conference of Catholic Bishops released the nation's 45 million Catholics from mandatory Friday abstinence on most Fridays of the year.

The change is effective Dec. 2—the first Friday of Advent—but since in most dioceses the no-meat rule is lifted on the day after Thanksgiving, most U. S. Catholics may join fellow churchmen in France, Italy and Canada in eating meat next Friday.

French, Italian and Canadian bishops freed Catholics in those countries from the rule of abstinence earlier this year. Their action was authorized by Pope Paul VI and the Vatican Council.

The U. S. bishops, winding up an extraordinary meeting of the national conference, made several exceptions to their decree.

They said Catholics still must abstain and fast—limit the consumption of food in general—on Ash Wednesday, the first day of Lent, and on Good Friday, the Friday before Easter, and other Fridays in Lent.

The bishops said in their pastoral statement that on Ash Wednesday and on the Fridays during Lent "the obligation to abstain and or fast is so substantial that 'no Catholic Christian will lightly excuse himself' from it."

Archbishop Philip M. Hannan of New Orleans, asked at a news conference whether a Catholic who eats meat on Friday during Lent would commit a sin, said "that would be a matter between him and his confessor."

The bishops said they lifted the ban to permit U. S. Catholics freedom of choice in observing personal penance. But they said they still "give first place to abstinence from fresh meat."

The action was taken, the bishops said, "in the hope that the Catholic community will ordinarily continue to abstain from meat by free choice as formerly we did in obedience to church law."

The law first was decreed by Pope Nicholas I 858-867. But Friday dates from the early days of Christianity as a day set aside for acts of mortification and penance in memory of Christ's suffering and death.

Following decisions of the Vatican Council, Pope Paul said earlier this year "the Apostolic See intends to reorganize penitential discipline with practices more suited to our times." He left it to the discretion of the national churches to rule on the meat-on-Friday ban.

Yule War Lull Offer

WASHINGTON (AP) — Secretary of State Dean Rusk has indicated the United States is holding open the possibility that a silence in the ground war in Viet Nam will be matched by a silence in the air war — at least for Christmas and the lunar New Year.

But Rusk added at a news conference Friday: "I would not want to hold out the expectation that a prolonged pause in the bombing might occur."

He said there have been no indications from the other side as to what would happen if the bombing were stopped. But he drew a distinction between the idea of a general pause — like the one that lasted 37 days over the last Christmas season — and what might happen this Christmas.

Carefully emphasizing his words, Rusk said that what might happen during such special days as Christmas and the Tet — lunar New Year — period would depend on the South Vietnamese and to some extent on the Viet Cong, the Communist guerrillas.

The Tet, which covers a three-day period in the second week of February, ushers in the "Year of the Sheep" in the Chinese lunar calendar.

At his first news conference in two months, Rusk avoided taking flat position against a holiday truce provided the other side stopped shooting. But he did rule out any one-sided gesture by the United States to stop bombing North Viet Nam without some assurance of reciprocal action.

Rusk said the military problem has to be faced in South Viet Nam "solely due to the fact that the other side has not been willing to undertake serious discussions or to come to the conference table, or to engage in a conference or to start making peace."

Rusk, speaking of East-West relations in general, expressed hope a treaty outlawing military uses of outer space could be reached with the Soviet Union in the near future. He said some underbrush had been cleared away on the subject of weapons, but no agreement is yet in sight.

Once again Rusk said reunification of Germany was necessary before there could be any genuine peace. Improved relations with Eastern Europe could open up some possibilities on reunification which have not been possible during the coldest phase of the cold war, he said.

And Rusk said it was not the U. S. impression that Communist China has made important progress on its nuclear missile development. And it will be some before they have an intercontinental system, he said.

By that time, he said he hopes the Chinese "will be sufficiently sophisticated about these matters" to know that their use "would be a reckless act which could cause the greatest problems for them, even though they might possibly cause some problems for others."

Governor Urges Pray For Peace

LANSING (AP)—Gov. George Romney has proclaimed Thursday, Nov. 24, as Thanksgiving Day in Michigan and urged all citizens to pray for peace, justice and freedom. The proclamation said:

"Let us forever emulate the courage and vision, strength and good will, tolerance, sense of purpose, personal responsibility and initiative which enabled our forefathers to forge ahead despite difficulty and disappointment.

"Let us pray for world peace and a new world dedicated to the dignity of man and the fulfillment of his most cherished wish for freedom, tolerance and justice. And at a time when many of our loved ones are fighting and dying to achieve this, our very special prayers should be for them."

Other proclamations made Nov. 27 - Dec. 3 Acoholism Information Week, Dec 10 Human Rights Day, Dec. 15 Bill of Rights Day, and Dec. 7 Pearl Harbor Remembrance Day.

Pipe Pierces Chest, She's Lightly Hurt

BOSTON (AP) — Judith Parrott, 24, has lived to describe how her car rammed a wire fence, and the top fence rail of 1½ inch pipe came through the windshield, and plunged through her chest, pinning her to the seat.

Mrs. Parrott had swerved to avoid a child who ran into the path of her car Thursday.

"I knew the pipe had gone through me," she said Friday at the hospital. "I told the children — Stephen, 7, Cathy, 3½—to get out of the car because I thought I was going to die."

A police rescue team sawed the pipe, front and back, and freed her from the car. The pipe had gone through the seat, too.

On arrival at Carney Hospital the chunk of pipe left in her slid to the floor.

Doctors cut away some bruised tissue and sewed her up. They said the pipe went through her shoulder between the ribs and shoulder bones. It didn't cut any arteries.

Doctors say she can go home in four or five days.

B52 Jet With 9 Men Crashes At Stone Lake

HAYWARD, Wis. (AP) — A supersonic jet bomber crashed in a remote, wooded area of northern Wisconsin minutes after an aerial refueling Friday night. There were no signs of survivors among the nine persons aboard.

Witnesses said the Strategic Air Command's eight-engine B52 crashed and exploded about 6:30 p.m. about seven miles east of nearby Stone Lake.

The Air Force said the plane carried no weapons and had left Barksdale Air Force Base, La., about 3 p.m. on a routine combat training mission. The crew was attached to the 2nd Bomb Wing at Barksdale.

The craft had successfully completed a refueling in air and had communicated with all of its radio checkpoints only a few minutes before contact was lost, said a spokesman at Duluth, Minn., Air Force Base, which sent a rescue team to the crash site.

"I happened to be looking right at it when it crashed. There was a terrific explosion," said Roger Langhamm, a Wisconsin Conservation Department employe.

Langhamm said he and a half dozen friends and hunting companions made their way to the scene, more than a mile from the nearest road.

"We saw several bodies," he said. "There were just fragments of the plane although the engines were more or less intact."

Court Denies Wayne Sheriff Hearing Delay

LANSING (AP) — The State Court of Appeals Friday denied a request by Peter L. Buback, sheriff of Wayne County, asking to delay a hearing on a petition to remove him from office.

Buback claimed the removal proceedings would prejudice his pending trial on a charge of wilful neglect of duty.

The unanimous decision by Judges John H. Gillis, John W. Fitzgerald and Thomas Kavanagh said in part:

"While this court is convinced that the holding of the ouster hearing prior to a criminal trial involving the same charge may raise a substantial constitutional question, that event has not transpired and we know of no legal authority authorizing us to rule on a prospective legal question."

Police Conference At Wayne Monday

DETROIT (AP) — A Conference on Police Education will be held Monday at Wayne State University. The meeting is sponsored by the Michigan Law Enforcement Officers Training Council, the WSU Police Administration program and the WSU department of political science. The program includes addresses by Michigan police experts and a panel discussion of "Problem areas in Future Police Education."

Big Car Firms Announce Cuts In Production

DETROIT (AP) - The four major auto companies — General Motors, Ford, Chrysler and American Motors — are slicing production. All four firms have reported lagging sales and declines in profits.

The industry, a key force in the U. S. economy, was jolted Friday when General Motors revealed it would cut its auto output by 8.1 per cent.

GM, the nation's largest auto builder, said the cutback would start with a 3.7 per cent reduction in December and an additional 4.4 per cent in January.

An undetermined number of workers will be laid off assembly lines as 11 of its 23 assembly plants around the nation reduce their output, GM said.

"These are rugged days for General Motors," the firm's board chairman, Frederic G. Donner, said only last month.

But Lee A. Iacocca, group vice president of Ford Motor Co., said this week: "Nobody is singing the blues around here. There is a pause in the market, but it is nothing serious. There is uncertainty about a tax increase and about the Viet Nam war.

"We know full well we are running behind the industry's 1965 sales record, but this still winds up as the second best year in automotive history, and there is nothing to get alarmed about," he said.

Ford, Chrysler and American Motors confirmed they are lowering production quotas for this month. One industry trade paper said the auto makers have trimmed 58,000 cars from this month's production schedules.

MSU Winners

EAST LANSING (AP)—Michigan State University's meat judging team has won the Eastern National Intercollegiate Meat Judging Contest in Richmond, Va., in competition with seven other teams. MSU's James Maness, a senior from Franklin, Mass., placed second in individual competition.

THIS IS Walter Wojcik, 30, whose body was found near their family farm at LaBranche Friday by his mother, dead of a gunshot wound in the lower chest. He had gone out in a pickup truck to close a gate before breakfast. When he did not return by noon his mother went looking for him and found his body, his dog by its side, pulled into a brushy area. This picture was taken on his graduation from high school in 1954.

Walter Wojcik Found Dead Of Gunshot Wound

The series of trespass incidents on the Wojcik farm on Menominee County Road 551 in Harris Township brought predictions that there would be a tragedy there some day.

Yesterday there was.

Walter (Tony) Wojcik, 30, farmer and woodsman, was slain by a single gunshot wound in the lower chest, State Police reported.

Officers said that his body was found by his mother, Mrs. Bertha Wojcik, with whom he lived on the big family farm near LaBranche. The investigation, said State Police, showed that death was apparently caused by one shot and that the wound was not self-inflicted. An autopsy was scheduled this morning in Gladstone.

Carried Rifle

Conservation officers who assisted in the inquiry reported that Wojcik was not wearing hunting clothing, but that he had a .22 caliber rifle and that his body was found 85 paces from a gate, presumably the one that he had gone to close, near the boundary of the Wojcik property.

The body had been pulled into some brush, Mrs. Wojcik told her family, and the dead man's little dog was lying beside his body.

Walter Wojcik, was born Nov. 21, 1935 at LaBranche and had spent his entire life in the LaBranche area, other than the past five years, in which he resided between Harris and Perronville.

He was a member of the 107th Engineer Battalion, Michigan National Guard, stationed at Gladstone.

5 Sisters Survive

Survivors include his mother, Bertha; and five sisters, Mrs. Edward (Blanche) Gurosh of Route 1, Wilson; Mrs. Ray (Lorraine) Kuharski of Route 1, Wilson; Mrs. Edward (Helen) Kuharski of Route 1, Wilson; Mrs. George (Stella) Ervo of Arlington Heights, Ill.; and Mrs. Elroy (Anita) Monicho of Chicago.

The body was taken to the Boyle Funeral Home at Bark River.

Mr. Wojcik was self-employed as a timer operator.

State Police did not speculate publicly on an explanation for the fatal shooting beyond statement that "there is the possibility of foul play," which was indicated by their other statement that the wound was not self-inflicted.

The shooting inevitably called up memory of other incidents on the extensive Wojcik family holdings of farm and timberlands along County Road 551 north of U.S. 2 between Wilson and Harris in Menominee County.

There were charges of threats against hunters who ventured onto the Wojcik lands and in 1958 there was a charge against Mrs. Wojcik of firing on a hunter. She was cleared in a trial in Menominee County Circuit Court.

Rebel Students At U-M Planning Teach-In Monday

ANN ARBOR (AP) — Rebellious University of Michigan students decided in a mass meeting Friday night to hold a teach-in protesting their lack of power to help make administrative decisions.

About 1,000 students decided to hold the teach-in Monday night.

And Howard Wachtell, who acted as chairman of the three-hour session, said a sit-in at the U-M Administration Building may be called if university officials continue to refuse to bow to student demands for a hand in administrative decisions affecting them.

Some student leaders earlier threatened to hold the sit-in to underscore student opposition to a university ban on any sit-ins that interfere with normal operations of the school.

The Student Government Council, a 16-member group which represents the 32,000 U-M students, severed relations with the university because of the dispute.

Ed Robinson president of SGC, said the campus teach-in would discuss the role of students in administrative decisions and their right to a voice in those decisions.

After the teach-in, he said, the demands of the students would be handed over to university officials, who would be given until the following Monday to respond.

No response, or a refusal to comply with student wishes, would again create the possibility of a sit-in directly in conflict with the sit-in ban students oppose.

The ban was imposed by Richard C. Cutler, U-M vice president affairs. Any student demonstrations interfering with university operations will be dealt with by fines or suspensions of students involved, he warned.

94 Safe When Jet Gear Jams

FORT WORTH, Tex. (AP) — For a tense hour a Delta airlines jet carrying 94 persons circled to use up fuel. Then the pilot, Capt. J.D. Irvin of Atlanta, Ga., set down so smoothly that the lack of one landing gear was hardly noticeable.

His four-engine Convair 880 was diverted to Carswell Air Force Base here Friday night after Irvin discovered the jammed right gear near the end of a flight from New York to Houston via Atlanta.

Ground crewmen coated the 12,000-foot main runway with foam and the pilot, a 20-year veteran with Delta, brought the huge craft down at 11:22 p.m.

Sparks flew for 1,000 yards as a right engine pod scraped. The plane veered slightly to the right but stayed on the runway.

A brief burst of flame was extinguished almost as soon as it appeared. The plane apparently suffered little damage.

"I've had them to come down harder on the landing approach than this one," said Edward Lumen, a passenger from Houston. "I can't compliment the pilot more on such a great job. It was really a smooth landing."

The pilot reported the 88 passengers remained calm and responded well to instructions, sliding down emergency exit chutes as soon as the craft skidded to a halt.

MRS. ORVILLE BJORGE didn't plan on taking a plunge when she backed this car out of her driveway in Phoenix, Ariz. But, she said, the accelerator stuck and she backed across the street, across two of her neighbors' yards, through two fences before winding up in this nearby swimming pool. The driver suffered only bruises. She said the car traveled backwards at up to 50 miles per hour during the unexpected ride. The wrecker in the background pulled the vehicle to dry land. Lead 'Music Man' Actors Active In Home Roles, Too

John Romstad, director of "The Music Man" for Players de Noc, held out a sheet of paper with mimeographed squares on it.

In the squares, written notations filled almost every space.

"Busy?" he said, "Take a look."

The paper was a calender for the next several weeks of days and nights which are crammed full of rehearsals, appointments and the day-to-day business of teaching and living.

It might have been a carbon of the schedule carried by Mrs. A. A. (Virginia) Gossan and Peter Adamini, who will play the two lead roles in "The Music Man."

Adamini will play the gregarious Prof. Harold Hill, a floating musical instrument salesman, and Mrs. Gossan will play Marian Paroo, the librarian-piano teacher he falls in love with.

Work Lies Ahead

Before the first performance, Monday, Dec. 6, there is much work to be done. And unlike Broadway productions, the players must wedge in rehearsals, memorization of lines and the other duties of actors, into the always-full routine of daily life.

For Adamini, an 11th grade English teacher at Escanaba Area high school, he has his classes, grading assignments, his wife and two young sons to worry about between the lines. Mrs. Gossan, wife of an Escanaba optometrist, has plenty to do keeping house for her husband, daughter and three sons.

Fortunately, neither are actually amateurs when it comes to drama or music.

Adamini, 319 S. 10th St., a native of Negaunee, graduated from Northern Michigan University in 1964 with a major in speech and drama. He taught two years at Cheboygan, Mich. before coming to Escanaba.

Had Prep Theater

While in Cheboygan, he was responsible for the high school theater program and also participated in community theater productions. In the summer of 1965, he was a member of the Holly Arbor Theatre Restaurants Resident Actors Company, a semi-pro summer stock company near Rogers City.

"The Music Man" will be Adamini's seventh show. He has either acted, directed or worked as a technical director in "The Glass Menagerie," "The Diary of Anne Frank," "The Marriage Go Round," "The Time of Your Life," and "The Tavern."

In addition, he recently served as technical director for Escanaba Area high school's production, "Gramercy Ghost."

Mrs. Gossan, 1507 17th Ave. S., also is well schooled for her role, which involves considerable solo work.

A native of Iron Mountain, she began her singing career under T. Ray Uhlinger and was the first Iron Mountain high school student to receive a scholarship to the National Music Camp at Interlochen. She also attended summer courses at Juilliard School of Music, New York, and continued her studies in Chicago under Ettore Tito Ruffo and in Italy. She also studied under Barr Hill of the American Conservatory of Music, Chicago.

Featured Soloist

Since returning to Michigan, Mrs. Gossan has appeared throughout both Upper and Lower Michigan. Her appearances include singing soprano in the "Messiah" at Manistique, appearing twice at Marquette, and also at Iron Mountain.

She is also active in the Escanaba Women's Club, a member of the Eastern Star and is a past president of the U. C. T. Women's Auxiliary and the Lemmer School P. T. A.

Curtain time for the three-hour musical is 8 p. m. at the Escanaba Area high school auditorium. Dates are Monday, Dec. 5; Tuesday, Dec. 6; Thursday, Dec. 8, and Saturday, Dec. 10.

Tickets can be obtained by calling ST6-1040.

WW I Veterans And Auxiliary Hold Installation

World War I Veterans Barracks No. 1129 and Auxiliary held joint installation of 1966-1967 officers at a pot-luck supper and meeting, Thursday, Nov. 17 at V.F.W. Hall.

Officers for the Barracks were installed by the District Commander, William Garbett:

Commander, Alfred Holland; Sr. Vice Commander, Antone Miller; Jr. Vice Commander, Roy Cartwright; Quartermaster, William Garbett; Chaplain, Ivan McCauley; Adjutant, Ed Anderson; Trustees, Frank Wolke and John Pollitt.

Auxiliary officers were installed by Mrs. Alfred Holland, a Past President of Auxiliary 1128:

President, Mrs. Romeo Martin; Sr. Vice President, Mrs. Nelson Sorault; Jr. Vice President, Mrs. Antone Miller, Treasurer, Miss Josephine Belanger; Chaplain, Mrs. Frank Wolke; Adjutant, Mrs. William Garbett.

Guests from the Manistique Barracks and Auxiliary, Mr. and Mrs. George Carney; Iron Mountain Barracks and Auxiliary, Mr. and Mrs. Leo Greenleaf, attended.

Plans were discussed for comfort items to be sent to Iron Mountain VA Hospital; a December meeting and Christmas party with gift exchange; and the coming District 1 convention, May 19-20, 1967.

New Law To Upset Birthday Customs

ROME (AP) — A new law allowing parents to give their children non-Italian names seems certain to upset the birthday system in this country.

Women named Abbie, for example, might do well to forget the whole thing.

Most Italians now let their birthdays drift by unheeded, preferring instead to celebrate the name or feast day of the saint for whom they are named.

This has its advantages.

For one thing, you don't have to strain your memory trying not to forget the scattered birthdays of all your friends and relatives. Right in front of you every day on the Italian calendar is the name of that day's saint.

Under the name day tradition, almost a million Antonios in Italy celebrate June 13. Three-quarters of a million Giovannis, mostly in the north, celebrate June 24. Half a million Giuseppes, mainly in the south, celebrate March 19.

Feminine forms of the masculine names are celebrated on the same day as the men. An exception: Maria, Italy's most common women's name. Marias have their own day.

The name days system has been almost, but not quite, foolproof.

An Antonio probably celebrates on June 13, the feast of St. Anthony of Padua. But he might have been named for St. Anthony, the Abbot, Jan. 17.

Francesco probably was named for St. Francis of Assisi, Oct. 4. But it might have been for St. Francis de Sales, Jan. 29; St. Francis Xavier, Dec. 3; St. Francis Borgia, Oct. 10; St. Francis Caracciolo, June 4, or St. Francis of Paula, April 2.

The new law allows names not taken from the saints and names containing letters such as J,K,W and Y that are not in the Italian alphabet. Jack or Jake, for example, may squeeze in under St. James or St. John. Buck and Buster might adopt St. Bartholomew or St. Boniface.

But the Abbies will be left with just a birthday.

Offer Program On Anti-Smoking Monday Night

An anti-smoking film entitled "Too Tough to Care" will be shown for the public at the State Office Building, 305 Ludington, Monday night 7:30 p. m.

The film is an amusing satire of the tobacco industry and the millions of dollars spent annually on tobacco advertising in this countr. It seeks to strengthen the desire to quit smoking.

Alumni of the "Five Day Plan To Stop Smoking" held here in 1964 are also especially urged to attend and to bring their friends.

Pastor John Erhard of the Seventh-day Adventist church will direct the evenings program and there is no charge.

Zambia Copper Output Slips

LUSAKA, Zambia (AP) — The value of Zambia's copper production slumped to $37 million during September, a government spokesman disclosed here Friday.

This is less than half the record figure of $74.5 million during July.

The spokesman attributed the reduction to a widespread strike by African miners and low prices on the London Metal Exchange — to which Zambian copper is pegged.

With the exception of April this year, when another strike hammered production, the September figures were the lowest for almost two years.

Burglars Crack Republic Vault

REPUBLIC—More than $1,000 in cash was stolen by burglars who smashed through a vault and then sledge-hammered opened a safe in the principal's office of Republic high school.

Supt. Walter M. McClintock said that about $291 in school funds and a coin collection with face value of $750 were taken. The money and collection were kept in a one-ton safe inside the vault.

McClintock said the coin collection, which included 4,000 Canadian nickels, 8,000 Canadian pennies, 1,500 U. S. pennies, all uncirculated, and a number of valuable U. S. mint proof sets, was privately owned.

"Intruders definitely knew the layout of the school and it appears they broke into only those rooms where money might be found," he said.

A coin box in a soft-drink dispenser in the teachers' lounge was rifled. The manual training room was broken into and tools there were taken for use in smashing the vault wall and cracking the safe. The vault wall was concrete block with steel reinforcement.

State Police and the Republic Township Marshall are investigating.

Chips And Splinters

Contributions To Chips Welcomed

The Upper Michigan Tourist Association meeting at Bessemer recently provided lots of chit-chat about recreational developments in the Upper Peninsula.

One of the chits was a report by a Copper Country resort operator on the Isle Royale National Park system of garbage disposal.

The garbage is picked up on the 50-mile long main island by a boat and hauled back to Mott Island, where it is burned in an incinerator. Then the ashes are hauled across Lake Superior to Houghton for disposal on the U. P. mainland.

It is the most expensive garbage disposal in the history of the Upper Peninsula.

Isle Royle is a heavily glaciated rock. There is almost no topsoil on it in which garbage might be buried. When a resort operator on the island planned a Tom Thumb golf course before the U. S. Park Service acquired the island he had to haul soil from the mainland to make the greens, there was none on the site.

It took Rossini 15 days to compose "The Barber of Seville."

Greatest Events In American History No. 5

HISTORY'S FIRST TELEPHONE CALL IS MADE BY YOUNG ALEXANDER GRAHAM BELL
Alexander Graham Bell was only 29 years old when he invented the telephone.
The magic moment occurred Mar. 10, 1876, in Boston, when Bell's voice was carried by telephone from one room to an adjoining one.
By Oct. 5, Bell phoned between Boston and Cambridge, a distance of two miles; the next year the Bell Telephone Co., was established and true long distance service began between Boston and Salem, Mass.
In 1878 the world's first telephone directory was issued, in New Haven, Conn., and by 1915 the telephone extended cost-to-coast.
Another American, Samuel Morse, had invented the telegraph. Now, Alexander Graham Bell gave the world the telephone. That moment—on Mar. 10, 1876 when Bell's voice was heard in the world's first telephone message—stands as one of the great and proud moments in American history.

Commercial Fishery Unperturbed By End For Friday Fish Ban

By GEORGE ESPER
Associated Press Writer

Some fish industry executives predicted today that the lifting of the Friday meat ban for Roman Catholics would have a detrimental short-range effect on the industry. Others foresaw no major effect, and some even said fish consumption would increase.

"Fish is not going out of style," commented J. Richard Childs, president of Jean Foods Inc. of Syracuse, N.Y.

"Even should the Catholics stop eating fish on Fridays, there's always that wonderful world of Protestantism," said Dick Bernstein, owner of Bernstein's Fish Grotto restaurant in San Francisco.

They gave their views in an Associated Press survey.

Loss Temporary

Economists, executives and spokesmen for the nation's $2-billion- a-year retail fish industry predicted losses rangin from 10 to 30 per cent. Some said it would be only temporary

Eugene Rolari, an executive of the Ocean Sea Fish Co. of Bridgeport, Conn., one of the largest seafood distributors in that state, said:

"Ninety per cent of the fish sales to the public is done on Thursday and Friday. I expect it will produce a drop in business of about 30 per cent."

W.F. Lomasney, an agricultural economist at the University of Illinois, who recently made a study of fish sales, estimated that fish consumption eventually might be cut by as much as 10 per cent.

Not Worried

Discounting the possibility of a sales loss, the National Fisheries Institute said: "It is a long time since the seafood industry of the United States depended upon the observance of religious duties for its welfare."

Pointing out that there are 240 varieties of seafood available, the institute added: "We believe people are eating seafood because of nutrition, for flavor and for variety."

John Von Glahn, executive director of the Fishery Council, an organization of 125 dealers in the New York area, said there are 45 million Roman Catholics in the country. He said there could be problems where there is a high concentration of Catholics.

"But the industry as a whole is not worried," added Von Glahn.

Hunters Keep Phones Busy

Deer hunters in the Upper Peninsula are again making record numbers of long distance calls, The Michigan Bell Telephone Co. reports.

Thomas J. Straebel, manager here for Michigan Bell, said the volume of long distance calls this week will be running much above last weeks traffic.

For example, Straebel said on the first Sunday, Nov. 13, of the deer season, Escanaba operators handled 3,923 long distance calls. Last Sunday, Nov. 6, 1,550 long distance calls were put through. An increase of 153 per cent.

He said the peak hour for calling by hunters is usually between 8 and 9 p. m. On Sunday, Nov. 6, Escanaba operators handled 129 long distance calls, nearly normal for that time of day. During the same hour on Sunday, Nov. 13, 617 long distance calls were placed.

Record volumes of long distance calls also are being handled at Iron Mountain and Marquette.

As a result of the record number of long distance calls, some delays may be encountered by phone users, Straebel said. But, he said the 40 long distance and information operators and supervisors here are doing everything possible to handle the record number of calls.

Improved business conditions also are being reflected in the number of long distance calls. Straebel said that in general, the volume of long distance calls is up approximately 10 per cent over last years figures at Escanaba.

Parent-Teacher Meetings Set At Bark River

The Bark River-Harris Public Schools is scheduling Parent-Teacher Conferences on Dec. 1 and 2. Forms have been sent out to all parents. As soon as all the requests have been coordinated, the parents will be notified as to what time they are expected to visit the teacher or teachers with whom they wish to confer.

Plans are also being formulated for Adult Education courses to begin after the Christmas Holidays. Suggestions are being welcomed as to courses the citizens of the community are interested in. Within a few weeks questionnaires will be sent out in order to find out which courses will have sufficient interest to warrant hiring instructors. As a rule, any particular course can be offered if ten or more people are interested.

In the realm of Adult Education, the School District is most desirous to assist those adult individuals in need of further schooling in order that they might get their High School diploma. Any one not having a High School diploma and desiring to earn one should call the superintendent's office.

If there is enough interest, courses can be funded as part of Title II-B of the Economic Opportunity Act.

ALTHOUGH ITS ANTLER'S are not particularly imposing, this huge deer shot near Crystal Falls had 28 spikes one-inch or longer on its huge head. The deer, an illegal kill, was one of the largest taken in the Upper Peninsula in years, weighing 270 pounds dressed out which would indicate a live weight of about 350 pounds. Conservation officer Robert Ball, stands near the deer, is 6-feet, 4-inches tall. (Iron Mountain News photo).

Elegeert Heads Radio League

Tom Elegeert, K8MJK of 1403 S. 13th St., Escanaba has been selected to set up an organization of Delta County amateur radio operators prepared to furnish organized emergency communications in time of disasters, it was announced today by Communications Manager F. E. Handy of the American Radio Relay League, U. S. and Canadian association of radio amateurs.

Elegeert's assignment, which carries the title of emergency coordinator of the Amateur Radio Emergency Corps, is to band together members of the amateur radio service in his community to perfect arrangements for emergency radio communication by hams in the event of natural disasters of other emergencies.

In addition to use of fixed radio stations equipment working from commercial power, amateur stations use self-powered radio transmitting and receiving equipment as needed and can often deploy portable and mobile units to accommodate a particclar emergency requirement. Elegeert, as ARRL Emergency Coordinator, will call local meetings of amateurs, establish common operating procedures, and arrange regular drill periods when the hams' personal stations may be mobilized under simulated emergency conditions.

His duties also include liaison planning with relief and public welfare agencies, as suggested in working understandings the ARRL Amateur Radio Emergency Corps has with the Red Cross, Civil Defense, and other agencies. Liaison will be established also with local protective services, such as fire and police departments.

In announcing the appointment, Handy pointed out that radio amateurs have traditionally had the responsibility of being in constant readiness to offer assistance in time of need with ham-acquired skill, emergency - powered transmitters and a wealth of community spirit.

Two Arrested And Fined For Cutting Trees

The Michigan Department of Agriculture today reported the arrest and conviction of two men for violation of the state laws regulating the cutting and transportation of evergreens.

Austin Miller, Coldwater, Mich., paid a fine of $10 and costs of $4.30 in Justice A. J. Mortier's court at Gladstone on Friday for transporting a balsam Christmas tree without obtaining a bill of sale from the landowner where the tree was cut.

Wes Koller, Daggett Rte. 1, was fined $14.70 and costs of $4.30 in Justice Mortier's court on Friday for transporting evergreen brush without having in his possession a proper bill of sale.

The complaints and arrests were made by the Michigan Department of Agriculture.

Lansing Hunter Is Heart Victim

The Upper Peninsula deer hunting season moved into its second week today after a seventh heart attack victim was recorded Friday.

Dead is Neil Hoeksena, 50, of Lansing. He died in an Iron County hunting camp.

The lower Michigan rifle season opened its two-week run this morning and many of the hunters who had come to the Upper Peninsula for the start a week ago apparently planned to be there.

Authorities at the Mackinac Bridge reported over 20,000 of the some 32,000 hunters who came north for the Upper Peninsula season has returned.

Latest count at the bridge showed 6,792 deer taken back, compared with 6,738 a year ago and 99 bear, compared with 64 —a better return than last year.

The Upper Peninsula deer season runs through Sunday, Nov. 27. The lower Michigan season will continue until Sunday, Dec. 4.

With The Deer Hunters

Earl Winchester of Rte. 1, Gladstone bagged a 125 pound spikehorn at 9:30 a. m. today while hunting at his camp at LaBranche.

Police And Teamsters

The Escanaba city police have voted unanimously to have the Teamsters Union represent them in bargaining with the city.

The decision injects into city employment and into the Police Department some new elements whose end results cannot be seen at this time. There seems to be no question, however, that a basic change in city employment policy is starting.

To understand the situation the citizen should know:

1. That the police have been represented by a union, the American Federation of County and Municipal Employes, and that they are also under a civil service system.

2. That the police are not the first to depart representation by the County and Municipal Employes union, that the city electricians left earlier and elected the Electricians Union to represent them.

3. That the Teamsters Union is the bargaining agent for other governmental employes including those of the Delta County Highway Department locally.

* * *

1. That the City of Escanaba is not inclined to discuss labor policy publicly. Lacking any adequate official conversation on the subject the people are suddenly confronted with an accomplished fact of change, or asked to vote in elections in which they do not know much about the issue. This was true in the referendum on special pensions for police and firemen.

Escanaba's Civil Service Commission was informed years ago that it does not have authority over city pay, that it is an advisory group. So it has backed off from even advice on pay to the city council, which has control over the situation.

Civil Service was set up to act as a buffer between the city's employes and the city government. In theory, at least, it should make unions unnecessary because it should perform their functions of protecting the workers, seeing that they were adequately paid, etc. Although our policemen have voted to have the Teamsters Union represent them they will remain under civil service because it is an ordinance covering the conditions of city employment.

* * *

For what they regarded as the rather ineffectual bargaining of the Municipal Employes Union the police will now substitute the hard professionalism of the Teamsters. City council, which greatly increased the wage offer of its professional managers this year on the first round of appeal by city electricians, set off a chain reaction that raised all city pay far above the Johnson Administration guideline on wage and price increases.

The police voted for Teamster representation despite the union's long record of trouble with the law under both Dave Beck and Jimmy Hoffa. They seem not concerned about any possible conflict of interest which might arise out of their police duty and their Teamster membership, although this has been a concern of municipal administrators, unionists and police officials elsewhere where the issue has been under consideration.

* * *

The desire of the police to upgrade their income is a natural thing and very much a part of our times, when so many elements of government employment are using muscle to force their pay up.

What the effect of this new element in city bargaining on wages, pensions and working conditions will be cannot be foreseen at this time. That city services are going to be more costly seems certain and this is not necessarily bad, because city employment should not be a second class sort of thing.

But under civil service the worker had a job tenure that was fully safe except in cases of gross misconduct. This security was once regarded as the ultimate in civil employment, but now civil workers see those in industry getting more pay and they want that. They need it, too!

* * *

The public's basic problem here, we suggest, is in the provision for equitable treatment of all city employes. Good treatment should not depend upon having the strongest representation although our police suggest by their action that they have had to come to this.

Our present city method of dealing with this growing new element of hard bargaining is to reverse the very process that city employes have used — that is, to employ professionals. City council takes the play away from its professionals. It is in a poor position, basically, to bargain. It must be elected, in a popularity contest and the electorate is often injudicious; council seldom has skills in this field and it is immensely anxious to please people and it is dealing with an apathetic public on one hand and with a very vocal petitioner on the other.

Changes are coming up and the public had better sharpen up its bargaining, as its employes have done.

Graft Bans Victory

By RAY CROMLEY

CAN THO, Viet Nam (NEA) —The former province chief was an earnest young army colonel.

"When I went to my province up north of here, the deputy province chief for finance offered me 600,000 piasters (5,100) and said that this money was not recorded in the books. He said I could use the funds to set up my own spy system or for any purpose I desired.

"He said there would be another 100,000 piasters ($870) a month which would not have to be accounted for. He said he would put them at my disposal. He said he would manage the paperwork in reporting to Saigon.

"He said this was extra money that Saigon did not know about.

"I reported him and had him demoted to a simple clerk in a tribal area in the highlands.

"I then called in the province deputies, the district chiefs and the merchants and told them what I had done.

"I told them I knew there had been corruption in the past and that they had taken part in it. I would forget the past, I said, but there would be no more payoffs and no more acceptance of payoffs.

"I said I would remove any official who took payoffs and take away the licenses of any merchants who attempted to bribe any official.

"I emphasized what I had done to my own deputy.

"Where did the 600,000 piasters come from? That's easy. Saigon sends cement, steel and other things. The province chief can fix the prices. Suppose something should cost 90 piasters. He can fix the price at 110. He will take 10 and the merchant take 10. There are many ways to work these things.

"But after setting this example, I had no further trouble. People didn't have to pay off officials to get business done as they did formerly.

"The graft shut off just like that.

"But then I left that province and was assigned to another place. Shortly after I left the old deputy province chief for finance—the one who had taken bribes and attempted to bribe me—was shifted back to the province into his old job.

"The province is now back in its old ways. The bribery and the payoffs are back."

The example of this young province chief shows graft and payoffs can be sharply cut if there is backing from above.

"I LOVE YOU"

Escanaba, I love you! I may as well admit it, for I now realize that what I feel for you is not a mere feeling of infatuation. I am sure by now, that it was "love at first sight."

I visited with you a little over a year ago. It was the last of June and Mother Nature had you dressed for a real debutante's debut. That day gave me one of those rare moments of real personal joy that one experiences on very rare occasions. I will many times recall the feeling of inner peace and tranquility I felt as I removed my sandals and walked mid-calf into the lake and watched a big boat chugging along in the blue-green water. In the distance it appeared as a small black silhouette along the horizon.

Although I fully realize that Escanaba itself is an up and coming busy town, with people like me who live and work and rear their families, it is heartening to know that the town-proper is surrounded by timber that has escaped the wrath of the power saw. I would like everyone to know about the hidden enchantment of Escanaba, Mich. What I saw and will long remember is a lovely, busy, progressive town, surrounded by the exquisite existence of Nature's creation The lake with big boats, and busy highways where if you take any little road it will lead you into the embrace of Lady Nature herself.

With your permission, I would like to write an article about you and submit it for publication to the Reader's Digest. But, I need to know more about you. I must learn about your beginning. Tell me about your history and what the name Escanaba means.

My husband and I are planning to build a new home in a woded area here in Redwood Falls, Minn. It is not Escanaba, but it does remind us very much of you. We'd like to name our new home after you. If you would tell us the meaning of your name, we could tell our friends. Yes, Escanaba, you are forever in our hearts and if we could build our own little Escanaba, in remembrance of you, we would be content there.

EDITION

First let me congratulate you on your special edition of Nov. 4th with A Salute to Progress commemorating 100 years of educational service by the Escanaba Area public schools. I attended grade school in the old Franklin and Washington schools back prior to 1921. We have visited in Escanaba occasionally and it always pleases me to see subscription to your Daily Press helps bring back to me memories of my childhood days spent in your great city. Also my mother enjoyed reading the Escanaba paper again. We Bittners were Escanabans to the core and Escanaba has always been our Home Town.

BREATHING

Synonymous with life itself is the habit of breathing. Even in sleep we never cease to breathe. We can do without food and even without water for short periods. But without air, there is no survival. Stop breathing and death claims us within minutes. By filling our lungs, and nourishing our blood, air builds up a potent life source. Every human activity depends upon the precious stuff. Without oxygen, food would do us no good, for it could not be oxidized and transmitted into healthy blood cells and body tissue. When we speak or air we are naturally talking about clean air. No one wants to drink dirty water or eat dirty food. So, naturally no one wants to breathe dirty air.

Only clean air can properly re-oxygenize the blood. Therefore, clean air should be important to eevry living human being, the first necessity of life.

Women bring life into the world. Therefore women should be interested in the preservation of life. Yes, mothers, you can do something about the foul air your child is continually breathing. You can leave the cigarette unlit.

You can be a woman.

All the old cliches of bridge are worth knowing but if you follow them blindly, you'll sleep in the streets.

One of the oldest is "Cover an honor with an honor." Of course, there is a conspicuous exception to this rule. When your honor is in back of two consecutive lower honors you can and you should always consider waiting and covering the second one.

East didn't know about this exception. He put his king of hearts on dummy's jack. It turned out to be a disastrous mistake.

South won with his ace and played out the ace and king of trumps. Then he played his ace of diamonds, led a diamond to the king and ruffed a third diamond. His next play was a third trump. East won and led a club. West took his ace and queen but that was all.

The queen of hearts was an entry to dummy and South's losing heart was discarded on a low diamond.

If East had played low on the first heart South would never have been able to get to dummy's diamond. He would have lost a heart trick in addition to the one trump and two clubs that he could do nothing about.

Was it possible that East's failure to play the king could cost his side a trick? It was but only if West had decided to make the ridiculous lead of the nine from a five or six card suit headed by the ace. Otherwise, East's failure to play his king could not lose a trick for his side.

Finding The Way

By RALPH W. LOEW, D. D.

One of the affluent industries of our generation is packaging. Developing bright containers with attractive colors and easily opened devices becomes the lifework of many talented people. There are laws governing the claims, the weight and the contents of the package. The shape and form of the containers is limited only by the imagination and the practical storage dimensions.

Packaging is important in other areas of life. The form of worship, is in the process of change in all varieties of religious groups. The need to communicate has affected all of the older or historic translations of scriptures. In many instances, the change is more radical. It is the discovery of the truth which had been confused with the packaging, and which causes new insights to be brought to the meaning of the statement of faith.

In the new Scripture translation the change of form is dramatic. Once upon a time, the Bible was protected by heavily decorated covers, sometimes closed with a latch, and kept in a place of reverence. With the upheaval of the Reformation new translations into the vernacular were published. In the 20th century we've had a rash of these new versions. Among the earlier forms was the American Revised version, quickly followed by the Goodspeed and Moffat translations and then by the Revised Standard version and the new English Bible. In addition, the J. B. Phillips paraphrase is a fascinating statement. The Anchor Bible, now in production, promises to be an interesting meeting ground for both Roman Catholic and Protestant.

One of the most interesting of the new packages for the Word is the volume, "Good News for Modern Man."

Published by the American Bible Society, it is packaged as a paperback. The new translation uses words now common in the English language. The pages are broken by frequent paragraph headings so that one is not overwhelmed by the printed page. There are simple line drawings which illustrate various paragraphs.

One immediately detects the emphasis upon communication rather than poetic beauty. The petition in the Lord's prayer concerning forgiveness is translated. "Forgive us what we owe you as we forgive what others owe us." The Beatitudes are stated as a series of injunctions beginning "Happy are those . . ." "Happy are those who know they are spiritually poor: the kingdom of heaven belongs to them." "Happy are those who work for peace among men: God will call them sons."

Ann Landers

Get Off Her Back; Maybe She'll Eat

Dear Ann Landers: Our daughter who is 23 years old went on a crash diet last November. Rosalie was 5' 5", weighed 130 pounds and looked just fine to me. But she said she "felt fat" and nobody could talk her out of it.

Within four months Rosalie was down to 96 pounds. The poor girl was skin and bones. When she was dieting she couldn't keep food down, and now — a year later — she still vomits almost every day.

I have cried and begged and pleaded with her to see a doctor but she says she is not sick. What do you call it when a person can't keep a meal down? This is well?

Please tell me what to do. I spoke to our family doctor and he said you can't force the girl to get help if she doesn't want it. What do you say? — ONLY HER MOTHER

Dear Only: I say your family doctor gave you excellent advice. And now may I add a word?

Stop the crying and the begging and the pleading. Perhaps Rosalie's stubborn refusal to see a doctor is related to her hostility toward you. Get off her back and she will probaly seek some outside help (which she desperately needs) when she gets to feeling it is her idea and not yours.

Dear Ann Landers: I am 17, an average-looking girl with a nice personality. I've had my eye on a certain boy for a year. I'll call him Barry. Finally Barry asked me for a date and I was thrilled. But it turned out to be a funny kind of an evening. Barry showed up with two fellows in the car and then we picked up a third.

I have gone out with Barry five times and every date is the same — no less than two other guys tagging along. Usually we just cruise around. Once we all went bowling.

My mother says she doesn't want me going with four and five boys because it looks terrible. I don't like the idea either because frankly I'd like to spend an evening with just Barry. But I'm afraid to suggest it. What do you think? — MOB SCENE

Dear Mob: A girl has the right, before she accepts a date, to ask the boy what kind of evening he has in mind. And if she doesn't want to be a den mother to four guys she should say so.

Next time, make it plain that if Barry wants to drag along a friend or two, the friends should bring dates. It's apparent that Barry would rather not be alone with you, just yet — so don't push it.

Dear Ann Landers: My husband retired last January and I am ready to go to work just to get out of the house and have a few hours to myself. When my friends told me that their husbands got to be a nuisance after they retired, I didn't believe them. I do now.

My husband is in good health and could do many things if he wanted to. But no, he'd rather dog my footsteps when I market, clean house and do the gardening. He even wants to come to my bridge club.

If I go where he can't go he looks hurt. Please help me.— R. R. R.

Dear R. R. R.: Suggest that your husband do the gardening while you do the marketing. Learn if there's a Golden Age Club in your city. He could find friends and interests there. Freedom is never free. You have to fight for it. And I hope you win because if you don't you're sunk.

The buck cooperated, but the surroundings give the handsome animal a lack of contrast which he welcomed as a contribution to his safety, but which complicates the problem of the news pressman.

Augenstein For Study To Close Lag In Schools

LANSING (AP) — Dr. Leroy Augenstein, Republican member - elect of the State Board of Education, has proposed a four - point program to "close the scholarship gap in Michigan.

"Having been critical during the (election) campaign, I feel I am obliged to say constructively what can be done," Augenstein said in a news conference.

Augenstein, soon to be one of two Republicans on the eight-member board, said he plans to propose:

1. An in - depth study to find out why Michigan, with its above - average per-pupil expenditures, ranks among the poorer states in terms of student performance.

A key indicator, he said, were studies that showed Michigan 24th among the 50 states in the average number of high school candidates for advanced placement programs in college. The Michigan average is less than one-fifth of the average for the 10 top states.

Another is the fact that Michigan ranked 22nd in the percentage of draftees who fail preinduction mental tests.

2. That teacher utilization be improved and that Atty. Gen. Frank Kelley rule on the legality of a new teacher certification code which was submitted to him more than two years ago.

Parts of the present code are no longer pertinent, he said, and are keeping many otherwise qualified persons out of Michigan's teacher-short classrooms.

3. That several new tests be evaluated to detect potential dropouts before they start school.

4. Motivating the people of Michigan — especially local school boards — to become concerned and take action on this problem.

Michigan's lag in the National Merit Scholarship program, Augenstein said, has been blamed on a large influx of poorly educated southerners. But, he added, New York has had a greater influx of the culturally deprived than Michigan and still has three time Michigan's percentage in the scholarship competition.

Romney Meets Rockefeller On Monday, Socially

LANSING (AP)—Gov. George Romney has scheduled a meeting with New York Gov. Nelson Rockefeller in Puerto Rico Monday, but he insists the meeting is purely social.

Both Romney and Rockefeller are considered leading contenders for the 1968 Republican presidential nomination although Rockefeller says he has no plans on running.

Romney and his wife, Lenore, will fly to the Caribbean island Saturday after the Michigan State - Notre Dame football game.

Fruit Growers

GRAND RAPIDS (AP) — Farmers concerned with labor problems will hear Dec. 6-8 from specialists on labor recruiting, mechanical harvesting and labor-saving techniques. The latest fruit research also lill be a major topic at the 98th annual meeting of the Michigan State Horticultural Society.

Tip For The Lost

PHOENIX, Ariz. (AP) — Members of the Western Surgical Association talked about almost everything but medicine at the organization's 75th anniversary meeting.

Dr. Kenneth Johnson of Phoenix said persons lost on the desert should sit down, preferably in the shade, so 'friends will know where to look for you."

Elberton Vates Itself Off Map

ELBERTON, Wash. (AP) — Elberton voters wiped themselves off the map in the general election.

Residents voted 15-5 to disincorporate the eastern Washington community and the Whitman County Canvass Board is expected to remove the town officially from maps and records Nov. 23.

Elberton, which once claimed it had the world's largest prune dryer, had a population of 66 in the last census.

Sault Murder Review Asked

SAULT STE. MARIE — A petition for a new trial has been filed in Chippewa Circuit Court on behalf of Carl Danielson, who was sentenced to serve a life prison term 25 years ago for the murder of a Sault police officer.

Danielson, 51, is an inmate at Jackson prison. In the petition he contends he was arrested illegally because the Justice of the Peace who issued the warrant was without jurisdiction. He cited recent Supreme Court rulings.

Danielson was convicted of murdering officer Clyde Powell on the morning of Sept. 13, 1941. After the conviction, he pleaded guilty to a manslaughter charge for killing Florence Prewett and was sentenced to a 50-75 year prison term to run concurrently.

Powell had been called to a house owned by Mrs. Prewett shortly after 4 a. m. and was shot in the chest as he entered the door. Mrs. Prewett has been shot in the head during an earlier argument.

New Cauliflower Is A Light Green

EAST LANSING (AP)—Some of the cauliflower now is coming up green at Michigan State University.

Dr. Shigemi Honma crossed white cauliflower with broccoli and developed a light green vegetable which a test group says tastes as good or better than white cauliflower.

Homemakers who helped in the tests also liked the green color, saying it was more attractive.

Honma started work on the green cauliflower variety in 1958. It will be field tested next summer, and growers will decide if it should be sold commercially.

The new variety should have an advantage for growers, Honma said. It does not require tying one to two weeks before harvest.

Tying is needed with white cauliflower to keep it from becoming a creamy, brownish color. The growers take up the leaves and tie them around the head of the cauliflower to protect it against the elements.

County Boards In Court On Monday

SAULT STE. MARIE (AP)—Circuit Judge George Baldwin Friday ordered three Upper Peninsula county boards of supervisors to appear in court Tuesday to explain why they have refused to pay a one mill levy to the Eastern Upper Peninsula Intermediate school district. Chippewa County prosecutor declared election results void claiming the election was improperly conducted.

Detroit Area Has Fluoridation Mixup

DETROIT (AP) — They may not like it, but some communities opposed to water fluoridation will begin getting fluoridated Detroit water next June 14.

"Our water main system is no respecter of political boundaries," said Gerald Remus, general manager of the Detroit Water Commission. The commission not only supplies the Motor City with water, but furnishes it to 50 outlying communities.

Detroit voters on Nov. 8 okayed fluoridation of the city's water supply.

And the treated water will go to places like Pontiac, Grosse Pointe Woods and Redford Township. Voters in these three communities have rejected proposals to add fluoride to their water as a means of reducing tooth decay among children.

Some communities hooked up to Detroit water lines won't get fluoridated water. This includes a few towns strongly in favor of fluoridation.

Some communities will get fluoridated water part of the time and nonfluoridated water the rest of the time, Remus said.

They won't know which they're getting at any given time, he said.

The half-and-half fluoridation will occur in those communities relying on two pumping stations for their water. Remus said one of the pumping stations will fluoridate water, the other won't.

Villages In Po Delta Flooded By Adriatic Sea

ROVIGO, Italy (AP) — A dozen villages in the southernmost Po delta were evacuated hurriedly early Friday as the waters of the stormy Adriatic sea backed up over thousands of acres of farmland. Dikes guarding dozens of other villages were threatened.

A total of 10,000 delta residents now have been taken to higher ground, but hundreds of stubborn villagers and truck farmers clung to their homes and lands despite impassioned official warnings.

Most of the 5,000 inhabitants of the towns of Scardovari and Bonelli were evacuated hurriedly Thursday, having returned to their homes following the Nov. 4 floods that wrecked wide areas of north and central Italy.

Despite evacuation orders from the prefect of Rovigo Province, 300 Bonelli residents in outlying areas said they would stay on the flooded land they had made fertile through hard work and sacrifice.

'Miss World' Is Girl From India

LONDON (AP) — A statuesque young Indian is taking the Miss World title to Asia for the first time but she says, "I don't really want it."

Reita Faria, 5-foot, 8-inch medical student from Bombay, also was doubtful today about what she will do with the 2,500 pounds ($7,000) prize money.

"I can't think of anything to buy with it," said Reita, 23. "I have always wanted a Mercedes, but I could not take that kind of car back to India.

"My country needs a lot of money and it would be unfair of me. I want to get back right away to finish my studies and become a doctor. I entered the contest for fun. I never expected to win."

Lock Sees State Income Levy In Next Two Years

LANSING (AP)—State revenue director Clearence Lock has declared that he foresees enactment of a state income tax within the next two years, with no change in the current four per cent sales tax.

Whether or not the new tax is enacted, said Lock, depends on the Legislature's ability to balance the budget within $50 million over the next two years.

If they succeed, he thinks an income tax won't be needed. "But if Lock's estimate of a $100 million deficit is correct, an income tax is inevitable, he saved.

Lock said that the sales tax would not be increased because that would require a constitutional amendment. He doubts whether voters would approve such an amendment at the polls.

Attend the Church of Your Choice

When a man gives thanks he is recognizing how small a part he himself has contributed to this world's abundance.

When a man gives thanks he is expressing his affection for and his dependence on those who constantly share the experiences of his life.

When a man gives thanks he is laying aside his discontentments to rejoice in the more numerous and more meaningful satisfactions that have marked each passing day.

When a man gives thanks he is escaping from the webs of pride, greed and self-addition that could otherwise imprison his soul.

When a man gives thanks he is meeting God on God's own ground. For God is God! And we are His children.

When a man gives thanks he is discovering his greater need. For all that God has provided is but the threshold to all that God promises.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

James Andersons Return From Mexican Tour

BARK RIVER — Mr. and Mrs. James Anderson of Bark Rivear returned this week week from a week's tour of Mexioco.

They flew from Green Bay to Mexioc City on Friday and had five days of guided tours. They attended a bull fight, a ballet in the Opera House, toured the oldest cathedral in Zocalo Square, the capitol building, the University of Mexico, saw the pyramids and the Shrine of Guadalupe. Jim said they climbed to the top of the Pyramid of the Sun but were glad to get back down where breathing was easier.

Other points of interest were Maximillian's Floating Gardens, the oldest church in Mexico in Cuernavaca, about eighty miles from Mexico City. An old Spanish fort was made into the church. They also visited the silver mines in Taxco and the Santa Prisca Cathedral.

Mexico City proper has a population of six million with another two million in what we call suburbs.

Corn and rice, in that order, are the stple crops and almost all food contains corn in some form. The climate varies from tropical to cold depending on elevation above sea level. Roads were very good but breathtaking in the mountains.

To quote Jim who operates the Gamble Stores in Bark River and Powers: "I'd like to go back again and see the plances I missed this time."

Mr .and Mrs. James VanEffen (Lee's Studio)

J. VanEffens Are Married Fifty Years

Mr .and Mrs. James VanEffen of 117 N. 19th St., Escanaba celebrated their golden wedding anniversary Saturday, Oct. 29 beginning with a high mass at St. Patrick's Church.

Following the mass breakfast was served at the home of their daughter, Mrs. Raymond Nolde of Rte. 1, Gladstone. Later in the day a family dinner was also served at the home of Mrs. Nolde.

Mr. and Mrs. VanEffen are the parents of six children and they have 17 grandchildren. Their children are: James of Roselle, Ill., Richard of Milwaukee, William, Mrs. Oscar (Phyllis) Larsen and Mrs. Arthur (Eileen) of Escanaba and Mrs. Raymond (Helen) Nolde of Gladstone Rte. 1.

Immediate members of the family were present for the celebration.

Advent Service At Calvary

Calvary Lutheran Church, Rapid River, will present an Advent Prayer Day Service, on Sunday evening, Nov. 27 at 7:30. This service has been prepared by the choir and is entitled "O Come Emmanuel."

Miss Tina Oberg will play the prelude and the congregation will participate through responsive reading and the singing of three hymns. Throughout the program the choir will sing anthems including: "Of the Father's Love Begotten", "Lo How a Rose", "As Lately We Watched", "O Holy Night", "O Jesus So Meek" and "Let All Mortal Flesh Keep Silence".

Miss Lynn Stenlund will play the offertory and Mrs. Russell Case will play an organ solo. Mrs. George Olson will play the postlude.

Members and friends of Calvary are invited to attend this special service at the beginning of the Advent season.

Witnesses To Hold Area Minister's Meet

A three-day minister's conference for Jehovah's Witnesses in this area will be held at Manistique Dec. 23-25.

Edward Palmcook, presiding minister of the Escanaba congregation, said that the sponsor, the Watchtower Bible and Tract Society, is arranging, "a varied program of Bible lectures, films, and ministerial skits to emphasize the need for each one of Jehovah's Witnesses to share in the expansion of the Christian ministry in his own community."

Escanaba will be one of approximately 50 Upper Michigan and Northeastern Wisconsin communities represented at the Manistique conference, according to Palmcook.

The conference will begin Friday evening, Dec. 23, at the Manistique High School. Principal speakers will be announced at a later date. Over 600 persons attended a similar conference in Iron Mountain last May.

Mrs. Wayne H. Finman

Joan K. Powell Bride Of Wayne H. Finman

Our Lady of the Lakes Church in Waterford, Mich., it's altars adorned with bouquets of white gladioli and mums was the setting today, Nov. 19 for the wedding ceremony uniting in marriage Joan Kay Powell of Clarkston, Mich. and Wayne H. Finman, son of Mr. and Mrs. Harold Finman of 712 S. 15th St., Escanaba.

Officiating at the 1 p. m. nuptials was the Rev. P. Kaiser. The bride is the daughter of Mr. and Mrs. John W. Elden of 8274 Ellis Road, Clarkston.

Satin Sheath

For her wedding, the bride selected a floor length satin sheath gown with touches of Alencon lace and styled with a full length train trimmed in lace. A petal headpiece centered with a single rose held her bouffant veil of illusion and she carried white gardenias on a satin covered missal.

Serving as maid of honor was Janet Powell of Clarkston and matron of honor, was Mrs. Gary Finman, sister-in-law of the bridegroom, of Addison, Ill. Bridesmaids were Sharon Pinho of Pontiac and Mrs. Edward Lauinger of Pontiac.

Bottle Green Velvet

They were attired in floor length, bottle green velvet gowns with satin touches and they carried bouquets of bronze colored mums.

Serving as bestman for his brother was Gary Finman of Addison and groomsmen were Robert Peoples of Pontiac, Gary Hoppe of Flint and John Leppanen of Clarkston. Seating the guests were Don Keranen of Southfield, Mich. and Dick LeMack of Kewanee, Wis.

A reception is being held this afternoon and evening at the home of the bride's parents.

Following a honeymon trip to New York City, the newlyweds will be at home at 91 E. Church St. Apt. 3, Clarkston, Mich.

The bride is a 1964 graduate of Pontiac Central High School and Mr. Finman graduated in 1963 from Northern Michigan University.

Hospital

Mrs. Irene Stewart, 824 Dakota Ave., is a patient at St. Francis Hospital convalescing from a fractured hip and shoulder suffered in a fall at her home.

Johnson Flying Home To Texas

WASHINGTON (AP) — President Johnson checks out of the hospital today and heads for his Texas ranch to work, rest and recover from the dual operation he underwent Wednesday.

"He has the usual aches and pains of any postoperative period," said White House aide George Christian. "Other than that, he feels fine."

Johnson got the go-ahead from his doctors Friday for the flight back to Texas. "They are quite pleased that he is going to the ranch and get some rest," said press secretary Bill D. Moyers.

The President plans to leave his $45-a-day suite at Bethesda Naval Hospital in suburban Maryland about mid-day, going directly to Andrews Air Force Base, Md., to board the presidential jet without stopping at the White House.

The medical team assembled for the presidential operation was breaking up, its members heading home less than four days after the surgery in which they removed a small growth from Johnson's throat and repaired an incisional hernia on the right side of his abdomen.

Following open house the film, "To Save A Child", produced by the Mott Foundation, will be shown. Refreshments will be served by mothers of Mrs. Alcott Erickson and Mrs. Martin VanDonsel's kindergarten rooms.

Briefly Told

Minnehwasca Chapter 96, OES will hold a business meeting Tuesday. All officers are asked to attend.

State Police are investigating the theft of two radios from the Gamble store in Rapid River sometime within the past week. The report of the theft was received Friday.

Raymond Cartwright of Flat Rock reported to Gladstone city police this morning that a nine-point buck he had killed had been stolen from his parked automobile in the 800 block, Delta Ave., sometime between 3 and 3:30 a. m. today. The ropes holding the deer on the car had been cut and the deer removed.

Both drivers were given traffic court notices but no injuries were received in the collision of two cars at Rapid River Friday evening, State Police reported. Given summonses were Robert A. Chenier, Gladstone Rte. 1, for failing to transfer registration plates, and Robert H. Fitzgerald, Kipling, no proof of insurance.

Traffic court notices have been issued by State Police to Bonnie E. Minor, Blackwell Ave., Gladstone, Daniel L. Vincent, Wilson, Edward L. Chapman, Lake Orion, all for no proof of insurance; Melvin W. Hanson, Bark River Rte. 1, no valid registration plates; and Archel R. Rupard, Cedar River, no proof of insurance and no operator's license.

Border Crossed By Cambodians

SAIGON, South Viet Nam (AP) — Uniformed Cambodian soldiers crossed the border into South Viet Nam, invaded a farming community and fought a brief battle with Vietnamese militiamen near the frontier, a Vietnamese military spokesman charged today.

He said 50 Cambodian soldiers penetrated 500 yards inside Vietnamese territory late Friday, kidnaped a Vietnamese civilian and stole 14 cattle. They returned into Cambodia after a short clash with a local militia unit near the frontier, the spokesman said.

The border-crossing was announced as fresh fighting broke out this afternoon in War Zone C between units of the U.S. 25th Infantry Division and entrenched Viet Cong.

The fighting erupted a few hours after Guam-based B52 bombers staged two raids today on Viet Cong positions in War Zone C about 60 miles northwest of Saigon.

The giant Stratoforts, in a third raid today, also bombed North Vietnamese training areas and gun positions 20 miles northwest of Plei Djereng Special Forces camp in the central highlands.

Except for the new fighting in the War Zone C sector in Tay Ninh Province, only minor ground action was reported.

For a ninth consecutive day, monsoon rains and low ceilings sharply cut U.S. air strikes over North Viet Nam.

U.S. pilots flew only 32 strike missions, concentrating all of them against targets about 45 miles north of the demilitarized zone and in the southern end of North Viet Nam.

Just two miles north of the demilitarized zone, the U.S. destroyers Hamner and John R. Craig bombarded an inland radar site and reported starting several secondary fires. The same 7th Fleet destroyers an hour later attacked 12 cargo boats on the North Vietnamese coast and reported destroying three and heavily damagin three more.

Lucas, Morin Sentenced Here

Two young men who are charged with striking Kent Anderson, 15, of 1921 Lake Shore Drive, the night of Oct. 29 in the yard at the Anderson home were arraigned in Escanaba Municipal Court on Friday.

Robert W. Morin, 26 of 1014 2nd Ave. S., pleaded guilty to the charge of assault and battery and was sentenced to 30 days in the Delta County jail.

Morin previously had been sentenced to 30 days in jail for entering the Percy Rosenurgy garage at 1619 Lake Shore Drive without permission.

Kenneth Lucas, 18, of 147 Champion St., Marquette, on Friday in Municipal Court here was found guilty of assault and battery and was ordered to serve 60 days in jail. Lucas indicated that he will appeal the conviction to circuit court.

Lucas pleaded guilty and was ordered to pay fines and costs for careless driving, leaving the scene of a property damage accident, and disorderly conduct in resisting arrest.

To be released from jail, Lucas must post a bond for his appearance in circuit court. The bond and the fines on the other counts total $135.

The Escanaba police reported that Lucas and Morin allegedly assaulted Kent Anderson, one holding him and the other striking him, in an unprovoked attack. The youth suffered a bruise on the side of the head.

Briefly Told

Escanaba police have issued traffic court summonses to Frank A. Rivers, Gladstone Rte. 1, excessive motor noise; Richard E. Niemi of 329 S. 18th St. and John R. Couillard of Bark River Rte. 1, both for speeding.

Soviets Order School Reforms

MOSCOW (AP) — The Soviet Union today ordered a series of reforms in public schools to put further stress on science and technology.

All central newspapers carried a full page of what was officially described as "measures to improve further the standard of secondary schools."

"The level of education of secondary schools does not yet correspond to the increased demands of life," the statement said.

Among measures ordered:

Introductory courses in the natural sciences — biology, chemistry, physics — to be started in the fourth grade, the class for 10 year old.

Establishment of secondary schools and classes concentrating on studies in a specific direction. Cited in this context were mathematics and computing techniques, physics and radio electronics, chemistry, biology and the humanities. This program is designed for the ninth and 10 th grades, students 16 to 17.

Increase of the compulsory school program from eight years to 10 years throughout the country.

An end to the practice of using school children in jobs unrelated to their studies, such as harvesting crops on labor-short collective farms.

UN Study Plan Hasn't Chance

UNITED NATIONS, N.Y. (AP) — A proposal to set up a high-level study group to try to solve the 16-year-old China question appeared today to have little chance of winning U.N. General Assembly approval.

The highly touted plan got a cold reception when Italy's former Foreign Minister Attilio Piccioni outlined it before the assembly Friday at the start of the annual debate on whether to give Peking the Chinese seat.

Both Nationalist China and supporters of Peking brushed aside the plan which is viewed as a long-range maneuver to seat both regimes in the world forum.

Ambassador Halim Budo of Albania, which is considered Red China's voice in the United Nations, labeled the proposal a delaying tactic. He told reporters "there is no need" for any study group.

Ambassador Liu Chieh, chief of the Nationalist delegation, said tersely: "We are opposed to any kind of a study group, because there is nothing to study as far as we are concerned."

Big-power reaction ranged from chilly to noncommittal.

Soviet Ambassador Niklai T. Fedorenko was reported to have rejected the plan as an effort to delay the admission of Red China.

Hannah Feted Friday Night

LANSING (AP) — Dr. John Hannah, who has guided Michigan State University in its rise to a place among the nation's leading schools, received special applause Friday night from alumni and friends, including three presidents.

Hannah, being honored at a testimonial dinner observing his 25 years' service as MSU president, received letters from President Lyndon Johnson and former President Harry S. Truman.

A taped message of congratulations came from former President Dwight D. Eisenhower, who appointed Hannah in 1957 as chairman of the U.S. Civil Rights Commission, a post he still holds.

About 1,200 persons attended the ceremonies, which also included presentation of a book of letters of praise from state university presidents all over the nation.

Hannah became president of the school, then Michigan State College, in 1941, when it had 6,356 students and facilities valued at about $15 million. Today it has 38,000 students and facilities worth $281.3 million.

State Spending $21 Million Over Budget This Year

LANSING (AP) — State spending this year will overshoot the Legislature's $974 million budget by $21 million, Gov. George Romney reports.

Next year's budget, starting next July 1, will come to about $1.2 billion, he said, "if we just continue this year's programs at the same level."

Several other automatic cost-raising factors could boost the 1967-68 budget to as much as $1.? billion.

Contrasted with the $995 million to be spent this year is the state's estimated revenue of $900 million — meaning a deficit budget of $95 million.

The figures indicate the $167 million surplus in the Treasury will be replaced by a deficit in mid-1968, State Budget Director Glenn S. Allen Jr., said earlier the deficit could come to about $83 million.

Romney called in Republican members of the Senate Appropriations and Taxation Committees and the House Ways and Means Committee today "because, he said,d "they should be made aware of these figures."

The figures bear out what Romney and others have been saying for several years — that the state must do something soon about its finances.

That something is generally regarded as a statewide income tax.

Romney, who worked out a fiscal reform program with legislators — including a statewide income tax — last year, declined to say today just what would be done to meet the state's future financial needs.

Two major factors that are hiking this year's spending are the Supplemental School Aid Bill passed in the fall session of the Legislature — adding $8.5 million to the budget — and increased contributions to the state's Public School Employes Retirement Fund.

The Department of Public Instruction, Romney said, underestimated public school payrolls by about $30 million—$636 million as opposed to an actual figure of $666 million. This adds some $5.5 million to the state's contribution to the retirement fund.

Major factors affecting even a no - expansion budget next year, he said, are increases in state contributions to all retirement funds — amounting to about $12.2 million — and whatever state pay increases the Civil Service Commission orders.

No TV Strike Until Monday

NEW YORK (AP) — Television and radio performers have put off their threatened industrywide strike until at least midnight Sunday, while negotiators attempt to reach a settlement.

Agreement reached Friday between the major networks and the AFL-CIO American Federation of Television and Radio Artists means that today's radio and television broadcasts — notably the football game between Notre Dame and Michigan State University — goes on as scheduled.

Under the guidance of federal mediator Abraham Desser, AFTRA reached a temporary accord with three major television networks, CBS, NBC, and ABC, and the Mutual Broadcasting System radio network.

The agreement stipulates that the networks not use any tapings made in the interim period after Sunday midnight if a strike materializes.

The AFTRA membership voted for a strike Tuesday, when the contracts expired. No specific strike date was set.

Mylander, Miller Lead Esky Past Holy Name

Crusaders Please Coach In New Start

By DAVE ANDREWS

Escanaba found a playmaker for Paul Miller and his talented teammates and Holy Name found a break in a dark cloud in the season opener at the Crusader gym Friday night.

For Coach Harold Johnson of Escanaba, it was sophomore guard Dan Mylander.

For Coach John Butrymowicz at Holy Name it was the realization that his Crusaders aren't going to repeat last year's winless season.

The capacity crowd that turned out saw Miller pour in 35 points as the Eskymos rolled, as expected, to an 85-66 victory, but it was Mylander, jabbing, picking, driving and passing who sparked the attack.

Sluggish at times beneath the boards and prone to errors to a hustling Holy Name team, Mylander triggered a pair of surges in the second and third quarters that put the game out of reach.

In the second quarter, the 5-foot-11 guard playing his first varsity contest personally accounted for 13 of Escanaba's first 17 points—getting the first four himself and then setting up Miller and 6-5 Bob Mryvall for nine more. One of his crackling passes was a behind-the-back gem to Miller all alone beneath the basket on one of Escanaba's frequent fast breaks.

Miller Superb

In the third quarter, after Holy Name whittled a 20-point Eskymo advantage to 10 at 49-39, it was Mylander again who got Escanaba moving with a crisp backhand layup on a drive down the key. Seconds later, a Mylander steal gave Miller the opportunity for another basket and the Eskymos pulled away to a safe 62-41 edge before the quarter was over.

Miller, a smooth 6-1 senior, was all that was expected.

First shooting over the Holy Name defense, then driving around it for easy layups, Miller bagged 13 field goals and nine of 11 free throws to pick up where he left off last season as Escanaba's leading scorer. He was superb in the first half, when he picked up 19 points.

Senior forward Bernie Larson, who also appeared improved, collected 14 points, while Mylander, Myrvall and Jim Boyle each added 10.

Smith Nets 17

Holy Name was paced by Tom Smith, a 6-2 senior center, wit 17 points as nine players contributed to the 66 point total — as many as the Crusaders scored in any game all last year.

Little Dave Cannon added five field goals, all from long range on jump shots, for 10 points. Tom Plouff chipped in with eight, Dale Shandonay, Fran Veldman and Terry Dufour each seven, and Tom Menard six.

"I was proud of the way the boys came back in the second quarter," said Butrymowicz. "They hustled all the way. Escanaba's a good team, but this game should help us."

Johnson, whose team figures to be among the biggest and best in the Upper Peninsula withs its experience and under-the-basket size, was concerned with the rebound figures, which showed only a 46-39 edge, but otherwise was satisfied.

"We weren't getting the second effort on rebounds," he pointed out. "It was just one leap and out."

On the other hand, after his statisticians replayed information that the Eskymos had the ball 81 times and came away with 85 points, he was pleased.

Shoot 44 Percent

"If we could keep that efficiency average throughout the season we'd be unbeatable," he smiled.

The Eskymos fired home 33 of 74 field goal attempts for a shooting percentage of 44 per cent. They added 19 of 28 free throws.

Holy Name, despite being outsized badly, connected on 28 of 72 floor attempts for 37 percent, considerably better than last season's 29 per cent shooting. The Crusaders hit 10 of 17 free throws.

In the jayvee game, a full-court drive in the final seconds of the second overtime by Greg Johnson gave Escanaba a 47-45 victory when his underhand flip from the key hit the basket, bounced around and dropped in at the buzzer.

Sandy Koufax Calls It Quits

LOS ANGELES (AP)—A tremendous question mark hovers over the future of the National League champion Dodgers. Sandy Koufax has retired.

Superb Sandy, acclaimed as perhaps the greatest left hand pitcher in baseball history and certainly the finest in the major leagues today, made official Friday what had long been rumored.

At 30, after his winningest season, Kaufax is quitting rather than pitch another season with the pain of his chronically arthritic left elbow.

"I feel I can't risk the chance of completely disabling myself," the handsome dark-haired bachelor told a news conference in Beverly Hills.

"I was told that if I kept on pitching I could do a good job of permanent damage.

"I've got a lot of years to live after baseball and I want to be sure of the complete use of my body."

Koufax earned a reported $125,000 in 1966 with the Los Angeles club, and could have commanded much more for 1967.

But money comes a poor second to a bad arm and, said Sandy, the Dodgers couldn't offer enough to make him continue to play—or change his mind about retiring.

"My decision is irrevocable."

Technically, Sandy asked to be placed on the club's voluntary retired list, which said Dodger vice president E. J. (Buzzie) Bavasi, makes the Koufax retirement automatic.

Bavasi did not attend the Koufax-called press conference and was indeed sharply critical because Sandy declined to wait to make the announcement until Dodger president Walter F. O'Malley returns home from Japan Sunday.

"I think he owed Walter the courtesy of waiting," said Bavasi. "What was three more days?

Advised of Bavasi's reaction, Koufax said he had wanted to make the disclosure before Bavasi left for a two-week vacation in Hawaii, but Buzzie persuaded him not to. Bavasi felt he could make a better deal—with Sandy still on the roster—at the league meetings in December.

"There's no question Sandy did the right thing — but he should have waited a few more days," Bavasi conceded.

But Koufax observed: "My only regret after 12 years in baseball is leaving it."

Baseball's strikeout king fanned more than 3-0 batters in three different years; he was the winningest pitcher the past three, with a 27-9 in 1966—bum arm and all. He also beat the New York Yankees twice and the Minnesota Twins twice in World Series games.

COOKS—Cooks overcame a 14-11 first period deficit by taking control of the rebounds and nudged Eben 58-54 Friday night in the opening basketball game of the season for both schools.

Seniors Bruce Swagart and Neil Hartman led the winners' attack with 23 and 20 points, respectively. Cooks also won the jayvee game, 36-29.

Lose Ball 30 Times, Game 60-53:

Braves Stumble To Miners

NEGAUNEE — The Gladstone Braves fell victim to first game mistakes Friday night and lost a Great Lakes Conference basketball game to Negaunee 60-53.

Despite losing the ball 30 times on turnovers, five times on out-of-bounds playins after Negaunee scores, the Braves were in the game until the final quarter when Paul Evans, a 5-9 senior guard, fired the Miners out in front with four field goals and a pair of free throws.

Negaunee opened a 19-10 lead after a quarter, but Gladstone ripped off 10 straight points to take a 20-19 lead before falling back at the half, 29-26. The Braves evened the game at 41-41 entering the fourth quarter.

Sophomore Steve Nelson, at 6-foot-3, fired in 15 of 22 shots from the field and added a free throw for 31 points to pace scoring on both teams. He also grabbed a team-leading 13 rebounds.

Negaunee was led by Evans with 24 points, while another 5-9 performer, John Argall, chipped in 14.

In the fourth quarter, the Miners connected on seven of eight free throw attempts, making 14 of 22 for their margin of victory. Gladstone had only five of 14 free throws, although they outscored Negaunee from the field 24-23.

Coach Bill Wood's Braves hit on 24 of 58 shots for 41 per cent. Negaunee hit on 23 of 72 shots.

In the jayvee game, Gladstone posted a 49-39 victory. The Braves return to action against Manistique, Dec. 2.

Miami Smashes Iowa 44-0 To Make Bowl Bid

By BEN FUNK

MIAMI, Fla. (AP)—The Miami Hurricanes, continuing a November blitz that stamps them as one of the nation's toughest teams, smashed Iowa 44-0 Friday with an attack that may have attracted the attention of the bowl scouts.

Alternating at quarterback, Bill Miller and David Olivo directed a ground-air assault that piled up 428 yards, while Miami's magnificent defense kept the Hawkeyes under strict control.

The Hurricanes had slipped early in the season, losing two games to Louisiana State and Florida State by a grand total of five points.

Then coach Charlie Tate's brawlers, coming on like gangbusters, whipped two of the top ten teams—Southern California and Georgia—and have a 6-2-1 record going into next Saturday's big one with Florida.

Miller, hitting seven of 10 passes for 127 yards in the first 21 minutes, directed the Hurricanes to a 21-0 lead, with John Acuff scoring once from the four and Joe Mira twice from the 19 and the seven.

Olivo, usually a running quarterback, hit seven of 10 passes for 63 yards.

Fighter Dies After Knockout

CANTON, Ohio (AP)—Greatest Crawford's idol was Floyd Patterson and his ambition was to be the light heavyweight champion of the world.

That was before he was knocked out in the ninth round of a fight at Canton's Memorial Auditorium Wednesday night.

Crawford died early Friday following surgery Thursday for a blood clot on the brain. He was knocked out by Canton's Marion Conner in the 10-round bout.

Crawford's mother, Mrs. Mattie Crawford, 51, a practical nurse from Brooklyn, N.Y., flew here Thursday night to be at his bedside. The boxer never regained consciousness and died several hours after she arrived.

"I hated boxing and I never wanted my son to be a fighter," said Mrs Crawford, the mother of 10 children.

The Rockets cashed on 30 of 56 field goal attempts for a hot 53 per cent in a 71-53 triumph. Powers shot only 26 per cent and was outrebounded 43-25.

In the reserve game, Rapid River posted a 31-26 victory.

Cold Shooting Beats Emeralds

ISHPEMING — Ice cold shooting in the second quarter sealed defeat for Manistique in a Great Lakes Conference basketball opener Friday night.

Making only two of 19 attempts from the field in the second period, Coach Rudie Branstrom's Emeralds fell behind 34-20 and lost a 78-58 decision to a speedy Ishpeming quintet.

Manistique was forced to play without 6-foot-5 senior Bill McKilligan, who missed making the trip when he came down with the flu Thursday night at practice. He would have started the game at center.

The Emeralds got consistent scoring only from Gary Sample with 25 points and Dave Barton with 23. Nine players contributed to Ishpeming's scoring with Alan Morrison and Bill Zhulkie each getting 20.

The Emeralds, after falling behind 4-0, spurted to an 11-10 edge but dropped back when shots failed to hit the target late in the first quarter and in the second period.

In the reserve game, Manistique notched a 72-65 victory.

Trenary Fights Off Rock Comeback 74-71

TRENARY — Trenary broke to a fast 34-23 first half lead over a jittery Rock team Friday, then fought off a Little Giant comeback to post a 74-71 victory in the opening basketball game of the season for both teams.

Leading 18-14 after a quarter, the Comets added seven more points to their lead in the second quarter, but needed every bit of it as Rock poured in 48 points in the second half.

Kim Peterson and Ron Begovac led the winners with 22 points. All five Rock starters, paced by Larry Lippens with 21 points, hit double figures.

Rock won the jayvee game, 64-52.

SPORTS MEMORIES!

Highlights from the world of sports from a decade ago . . . do you remember?

Third Week November 1956

- The opening call for boxers for the Escanaba team was answered by 14 candidates including Gary Besson, Jim Jorgensen, George Hurley, Bob Bourdeau, Ray Garver and Wayne Berthiaume from last year's team.
- Gary Wellman flicked in a short one-hand jump shot at the final buzzer to nip the Holy Name Crusaders 59-57 before a packed house at the Holy Name gym. Wellman led the Eskymos with 16 points. Frank Katrinski hit 20 in a losing cause.
- Forward Jerry Smith led Gladstone with 17 points and Ron Deloria added 15, but the Braves still lost to the Stephenson Eagles 61-49.
- Tom Fraser and Dave Frietz hooked up in a sizzling 10-game bowling match which Frietz won 1052 to 1011.
- Lois Cox belted a 181 singleton enroute to a 514 match to pace the K.C. Wednesday night bowling league.

AND ANY AMENDMENTS THERETO.

THE CITY OF ESCANABA ORDAINS:

CHAPTER I
SECTION AMENDED

Section 101. SECTION IX of Ordinance No. 65 shall be amended to read as follows:

SECTION IX
COMMERCIAL DISTRICT 1

(A) **Uses Permitted in a Commercial District 1.** In a Commercial District 1, a building, structure, or premises, may be erected or used for one or more of the following specified purposes:

(1) (Blank)
(2) (Blank)
(3) Multiple dwelling.
(4) Office, studio, barber shop, beauty shop.
(5) Retail stores and restaurants.
(6) Wholesale business, storage in bulk of or warehouse for such material as clothing, cotton, drugs, dry goods, feed, food, furniture, hardware, metals, pipe, rubber, shop supplies, tobacco, wool.
(7) Bank, theater, moving picture house, recreation building, assembly hall, mortuary, funeral home.
(8) Cold storage plant, ice manufactory, creamery, ice cream manufactory, candy manufactory, bottling or central distributing station, baking plant, dairy.
(9) Dyeing or dry cleaning plant, laundry.
(10) Bus terminal, taxi stand.
(11) Printing plant, newspaper plant.
(12) Radio and television broadcasting station, telephone exchange, police and fire station.
(13) Community garage.
(14) Storage of live poultry, or poultry killing or dressing for sale at retail on the premises only.
(15) Hotels, boarding houses, club houses with residential facilities, lodging houses, motels, overnite cabins, and other businesses of a similar nature, in which shelter or lodging is furnished a relatively transient clientele and a charge is made therefor.
(16) Mercantile establishments or professional or commercial services not listed heretofore which are not noxious or offensive by reason of the emission of odor, fumes, dust, smoke, waste, noise or vibration, provided such uses are approved by the Board of Appeals. See Section XIII.
(17) Churches, public or parochial schools, colleges, public library, museum, private educational institutions.
(18) Hospital, home dormitory.
(19) Community building or club.
(20) Public garages, repair shops, gasoline service stations, and other motor fuel filling stations, provided that no permits shall be issued for construction of new gasoline service stations on Ludington Street or within one-half block north or south of Ludington Street between First Street and Twenty-fifth Street. See Section XIII. (It is not the intent of this ordinance to restrict or to handicap in any way the continued operation of existing gasoline service stations on Ludington Street between 1st Street and 25th Street, or in the area one-half block north and south of Ludington Street; nor to handicap or prevent in any manner complete rebuilding or remodeling of any of these existing gasoline service stations, providing the boundaries of the land used for the gasoline service station at the time this ordinance is passed are not increased, enlarged or extended.)
(21) Public garages and new gasoline service stations may be permitted by a simple majority vote of the City Council on that part of Ludington Street and Highway U.S. 2 and 41 extending west from 25th Street to the City Limits.
(22) Business, public or quasi-public, and commercial vehicle parking, subject to the approval of the Board of Appeals. See Section I (G).
(B) **Accessory Uses Permitted in a Commercial District 1.** — when located on the same lot with principal residential use.
(1) Accessory buildings other than private garages shall be at least 10 feet from any dwelling situated on the same lot and at least 6 feet from any other building on adjacent lot or accessory building on the same lot.
(2) Accessory buildings may not occupy front yard space.
(3) Accessory buildings and portions thereof may occupy that portion of the side yard which is in excess of the side yard requirements.
(4) Accessory buildings and portions thereof may occupy up to 50 per cent of the required rear yard space except where a rear yard abuts for its full width upon a street said buildings any portions thereof shall not occupy any of the required minimum rear yard space.

On a corner lot, accessory buildings shall not occupy any part of that portion of the rear yard lying nearer to the street than the width of the side yard required for the same lot and abutting on such street.

(5) No portion of an accessory building shall approach nearer to a side or rear lot line than 3 feet except that on adjoining lots one story accessory buildings may be built up to the common lot line for a distance of not to exceed 30 feet, provided that such buildings on both sides of such common lot line are erected at the same time and are separated by a common or party wall of fire proof construction.
(6) Accessory buildings shall not exceed 12 feet in height from the ground floor to mean height as defined in Section I (14).

(C) **Front Yard Requirements in a Commercial District.**

(1) No front yard is required where the principal use is of a commercial nature, except where the commercial use is on the same side of the street in a block zoned for both commercial and residential uses, in which case the front yard requirement for the residential zone concerned shall govern, provided, however, that relief from this requirement may be obtained in certain cases as prescribed under Section XIII of this ordinance.
(2) When the principal use is of a residential nature the requirements of the nearest residential district shall apply.

(D) **Side Yard Requirements in a Commercial 1 District.**

(1) No side yards are required when the principal use is of a commercial nature.
(2) When the principal use is of a residential nature the requirements of the nearest residential district shall apply.

(E) **Rear Yard Requirements in a Commercial 1 District.** In a Commercial 1 District there shall be a rear yard of at least 25 feet in depth on every lot as measured at right angles from the rear lot line to the nearest part of the principal building, provided, however, that the owner of a lot in either of these districts may elect to provide for an open court of at least 300 square feet to be used for loading and unloading purposes. The minimum dimension of such court shall be 10 feet.

(F) **Area.**

(1) When the principal use is residential, buildings or structures hereafter erected shall not occupy more than 50 per cent of the area of the lot.
(2) When the principal use is commercial, buildings, or structures hereafter erected shall not occupy more than 85 per cent of the area of a lot.

(G) **Height.** In a Commercial 1 District, no building shall exceed 6 stories or 70 feet in height. However, nothing in this ordinance shall apply to restrict in the district the height of a church spire, tower or belfry, or a flat pole, wireless tower, monument, chimney, water tank, elevator bulk head, or state tower, or scenery loft, provided that it occupies an area not exceeding 10 per cent of the total area of the lot.

(H) **Conveyances which create non-conforming uses forbidden.** No conveyance of land shall hereafter be made when, as a result of such conveyance, the land or structure of the grantor shall be caused thereby to become a non-conforming use or structure.

CHAPTER II.
ENFORCEMENT PENALTIES

Section 201. The provisions of this ordinance shall be enforced by the Building Official. The concurring vote of two-thirds of the members of the Board of Appeals shall be necessary to reverse any order, requirement, decision or determination of any administrative official charged with the enforcement of this ordinance or any amendments thereto, or to decide in favor of the applicant any matter upon which they are required to pass under this ordinance or any amendments thereto.

Such appeal may be taken by any person aggrieved, or by any officer, judge, department, commission or board.

Any person, firm or corporation who violates any of the provisions of this ordinance shall be fined not less than Twenty Five Dollars nor more than One Hundred Dollars for each offense, or shall be punished by imprisonment for a period of not to exceed 90 days for each offense, or may be both fined and imprisoned. Any building which is erected, altered or converted, or any use of premises which is begun or changed subsequent to the time of passage of this ordinance and in violation of any of the provisions thereof, is hereby declared a nuisance per se. The court shall order such nuisance abated and the owner or agent in charge of such building or premises shall be adjudged guilty of maintaining a nuisance per se. Each day that a violation is permitted to exist shall constitute a separate offense.

The owner of any building or premises, or part thereof, where any conditions in violation of this ordinance shall exist or shall be created, and any architect, builder, contractor agent, corporation, or person employed in connection therewith, and who has assisted knowingly in the commission of any such violation shall each be guilty of a separate offense and upon conviction thereof shall be liable to the fines and imprisonment herein provided.

CHAPTER III.
UNLAWFUL USE NOT AUTHORIZED

Section 301. Nothing in this ordinance shall be interpreted as authorization for or approval of the continuance of the use of a structure or premises in violation of zoning provisions in effect at the time of the effective date of this ordinance or any amendments thereto.

CHAPTER IV.
VALIDITY

Section 401. Should any section, clause or provision of this ordinance be declared by a court to be invalid, the same shall not affect the validity of the ordinance as a whole or any part thereof other than the part so declared to be invalid.

CHAPTER V.
EFFECTIVE DATE

Section 501. This ordinance shall be in effect 10 days after its passage and publication.

I, Donald J. Guindon, Clerk of the City of Escanaba, Michigan, do hereby certify that the above and foregoing ordinance was duly passed and adopted at a meeting of the City Council held on November 17, 1966.

ORDINANCE NO. 477
Draft # 2 & 4 & 5 & 6

AN ORDINANCE TO AMEND ORDINANCE NO. 65 ENTITLED "AN ORDINANCE TO REGULATE AND RESTRICT THE LOCATION OF TRADES AND INDUSTRIES AND THE LOCATION OF BUILDINGS DESIGNED FOR SPECIFIED USES; TO REGULATE THE HEIGHT AND BULK OF BUILDINGS HEREAFTER ERECTED; TO REGULATE AND DETERMINE THE AREA OF YARDS, COURTS, AND OTHER OPEN SPACES; TO LIMIT AND RESTRICT THE MAXIMUM NUMBER OF FAMILIES WHICH MAY BE HOUSED IN DWELLINGS HEREAFTER ERECTED OR STRUCTURALLY ALTERED; AND FOR SAID PURPOSES DIVIDE THE CITY INTO DISTRICTS; TO PROVIDE A METHOD OF ADMINISTRATION, AND TO PRESCRIBE THE PENALTIES FOR THE VIOLATION OF ITS PROVISIONS." AND ANY AMENDMENTS THERETO.

THE CITY OF ESCANABA ORDAINS:

CHAPTER I
SECTION ADDED

Section 101. Ordinance No. 65 shall be amended by the audition of the following Section:

SECTION IX-A
PLANNED COMMERCIAL DEVELOPMENT DISTRICT

(A) **Purpose.**

The Planned Commercial Development District is established primarily for the convenience of persons residing in nearby residential areas, and is limited in its function to accommodating normally the basic day-to-day shopping and related needs of the residents living in adjacent neighborhood together with uses compatible therewith. Because it may be near to single-family residential areas, it is intended that permitted uses should be only those pertinent to its function and which are most reasonably compatible with the character of the surrounding areas, considering its purpose.

It is also the purpose of this district to provide an opportunity for modern and imaginative architectural design, site arrangement, and city planning.

(B) **Uses Permitted in a Planned Commercial Development District** are as follows:

(1) Art and school supply stores.
(2) Banks and financial institutions
(3) Barbershops
(4) Beauty shops
(5) Bicycle sales and service stores, not including the sales or service of any type of motor vehicle including motorcycles and motor bikes.
(6) Book and stationery stores
(7) Branch post office
(8) Camera and photographic supply stores
(9) Candy and ice cream stores other than drive-in service establishments
(10) Drugstores
(11) Florist shops
(12) Food stores, including grocery stores, meat markets, bakery outlets and delicatessens
(13) Gift shops
(14) Hardware stores
(15) Hobby shops, for retail sale of items to be assembled or used away from the premises.
(16) Jewelry stores, including watch and clock repair
(17) Laundry and dry cleaning receiving stations processing done elsewhere.
(18) Libraries, branch.
(19) Liquor stores
(20) Offices for physicians, dentists, optometrists, lawyers, public accountants, insurance agents, stockbrokers, realtors, and public or quasi-public agencies.
(21) Radio or television sales and repair.
(22) Restaurants other than drive-in service establishments
(23) Schools teaching music, dance or other cultural art
(24) Self service laundry and dry cleaning establishments.
(25) Shoe and hat repair stores.
(26) Wearing apparel shops
(27) Hotels, motels, overnite cabins and other business of a similar nature in which shelter or lodging is furnished a relatively transient clientele and a charge is made therefor.
(28) Cocktail lounges when operated in conjunction with a motel, hotel or restaurant.
(29) Auto service units only when established and operated in conjunction with a mercantile unit which operation is the primary use.
(30) Retail Stores.

(C) **Front Yard Requirements in a planned Commercial Development District:**

(1) In this district a front yard of at least 50 feet in depth as measured at right angles from the lot line to the nearest part of the principal building shall be required and no parking will be permitted in the front yard.

(D) **Side Yard Requirements in a Planned Commercial Development District:**

(1) No side yards are required in this district, except that no building or structure shall be erected closer than 25 feet from any area zoned other than Planned Commercial Development District.
(2) The rear yard shall be the same as the side yard.

(F) **Parking Area Required:**

(1) If the principal use of a building or structure is mercantile sales, there shall be required a hard surface parking area on a ratio of a minimum of 3 square feet of parking area to 1 square foot of floor area within said Planned Commercial Development District.
(2) If the principal use of a building structure is transient lodging, there shall be required a hard surface parking area on a ratio of a minimum of 1 square foot of parking area to 1 square foot of floor area.
(3) If the principal use of a building or structure is for libraries, branch, offices for physicians, dentists, optometrists, lawyers, public accountants, insurance agents, stockbrokers, realtors, and public or quasi-public agencies, restaurants, other than drive-in service establishments, schools teaching music, dance or other cultural art, there shall be required a hard surface parking area of a ratio of a minimum of 3 square feet of parking area to 1 square foot of floor area within said Planned Commercial Development District.

(G) **Height:**

(1) In this district, no building shall exceed 3 stories or 35 feet in height.

(H) **Conveyances Which Create Non-conforming Uses Forbidden:**

(1) No conveyance of land shall hereafter be made when, as a result of such conveyance, the land or structure of the grantor shall be caused thereby to become a non-forming use or structure.

(I) **Signs:**

(1) No portion of any sign shall extend more than 1 foot from the building or structure to which it is attached.
(2) A free standing sign identifying the area, not to exceed 35 fet in height, may be erected, subject to approval by the Board of Appeals.

(J) **Utilities:**

(1) All utility installations in this district shall be underground.

(K) **Size of District:**

(1) No original Planned Commercial Development District shall be less than 5 acres in size nor more than 10 acres.
(2) It will be required that the petitioners for the rezoning of any area to Planned Commercial Development District shall be the owner or owners of the entire area.
(3) Once a Planned Commercial Development District is established, any size plot of land may be added to the Planned Commercial Development District.

(L) **Building Permit Requirements:**

Developer or owner shall, in presentation of request for building permit include, together with other required data, the following:

(1) scaled drawing of original commercial development district showing:
(a) boundaries of property to be developed;
(b) exisiting topography with contour intervals of not less than two feet obtained from a field survey and referred to an approved city bench mark;
(c) the proposed size, location, use and arrangement of buildings and the proposed arrangement of stalls and number of cars, entrance and exit driveways and their relationship to existing and proposed street parking areas;
(d) drainage plan with sufficient control grades to indicate the intent of the developer;
(e) location, type and size of structures on adjacent properties within 200 feet of the boundary of the Planned Commercial Development District;
(2) dedication of any rights of way for the widening, extension, or connection of major streets as shown on the Official Master Plan, and granting of easement(s) for public utilities where required;
(3) indicate the stages, if any, which will be followed in carrying out the construction of the project;
(4) surety bond to the City of Escanaba in a sum at least equal to the estimated costs of all public improvements (streets, including curbing, drives, walks, walls, parking area and structures, installation of utilities, if any) for the proposed district.

CHAPTER II.
ENFORCEMENT PENALTIES

Section 201. The provisions of this ordinance shall be enforced by the Building Official.

The concurring vote of two-thirds of the members of the Board of Appeals shall be necessary to reverse any order, requirement, decision or determination of any administrative official charged with the enforcement of this ordinance or any amendments thereto, or to decide in favor of the applicant any matter upon which they are required to pass under this ordinance or any amendment thereto.

Such appeal may be taken by any person aggrieved, or by any officer, judge, department, commission or board.

Any person, firm or corporation who violates any of the provisions of this ordinance shall be fined not less than Twenty-five Dollars nor more than One Hundred Dollars for each offense, or shall be punished by imprisonment for a period of not to exceed 90 days for each offense, or may be both fined and imprisoned. Any building which is erected, altered or converted, or any use of premises which is begun or changed subsequent to the time of passage of this ordinance and in violation of any part of the provisions thereof, is hereby declared a nuisance per se. The court shall order such nuisance abated and the owner or agent in charge of such building or premises shall be adjudged guilty of maintaining a nuisance per se. Each day that a violation is permitted to exist shall constitute a separate offense.

The owner of any building or premises, or part thereof, where any conditions in violation of this ordinance shall exist or shall be created, and any architect, builder, contractor, agent, corporation, or person employed in connection therewith, and who has assisted knowingly in the commission of any violation shall each be guilty of a separate offense and upon conviction thereof shall be liable to the fines and imprisonment herein provided.

CHAPTER III.
UNLAWFUL USE NOT AUTHORIZED

Section 301. Nothing in this ordinance shall be interpreted as authorization for or approval of the continuance of the use of a structure or premises in violation of zoning provisions in effect at the time of the effective date of this ordinance or any amendments thereto.

CHAPTER IV.
VALIDITY

Section 401. Should any section, clause or provision of this ordinance be declared by a court to be invalid, the same shall not affect the validity of the ordinance as a whole or any part thereof other than the part so declared to be invalid.

CHAPTER V.
EFFECTIVE DATE

Section 501. This ordinance shall be in effect 10 days after its passage and publication.

I, Donald J. Guindon, Clerk of the City of Escanaba, Michigan, do hereby certify that the above and foregoing ordinance was duly passed and adopted at a meeting of the City Council held on November 17, 1966.

AMC Cuts Work On Rambler For 4 Days Next Week

KENOSHA, Wis. (AP) — Production of Rambler American bodies in Kenosha will be suspended from next Monday to Nov. 28, an official of the American Motors Corp. announced.

J. W. Mueller, general works manager of the Kenosha plant, said the suspension for four working days would "permit us to bring American field stocks into balance with our other car lines."

He said the shutdown would affect only the smaller portion of AMC auto production and that the output of Rebel, Ambassadors and Marlin car lines would continue "at the full rate."

Mueller said he did not know how many employes would be affected.

Father Of Two Has Name Change

PITTSBURGH (AP) -- Richard Nelson, father of two, has a new name today — Roberta Nelson.

Nelson wants to change his sex and petitioned Allegheny County (Pittsburgh) Common Pleas Court to change his name for social reasons.

The name change was approved Thursday. Nelson, 31, of suburban Brentwood, claimed in his petition that he was advised by doctors to undergo hormonal treatments and surgery for "sex reassignment."

Nelson was divorced in July. He did not appear in court and was represented by an attorney.

Saved By Military

HAMPTON, Va. (AP) — Henry C. Martin, former president of the Virginia Crab Packers' Association, says increased purchase of crabs by the armed forces is saving his pinched industry.

Name Changed

SANTA ANA, Calif. (AP) — Joachim Ludwig Schnitterbaum, a German immigrant, wanted to change his name when he became a naturalized citizen—to Joe Ludwig Schnitterbaum.

Card of Thanks

Wilker

I wish to thank each and every one for their kind expressions of sympathy, extended to me, during the loss and death of my husband, Anthony Wilker and to his sister, brothers and other relatives, to those who sent gifts, flowers, food, furnished cars and especially the Inland Lime and Stone Co. and employes and the pallbearers and Messier - Brouillire Funeral Home for their wonderful service and all that helped in so many ways, including the time when he was in the hospital. Your kindness will ever remain within our hearts.

Mrs. Anthony Wilker, Mrs. John McCleskey and Family, Mrs. Mary LaPine and Mr. and Mrs. W. Zuehlsdorf and Family

THIS PICTURE OF A buffalo was made by Eugene Peterson of Carney at Rochester, Minn., when he was on a visit to his daughter, Fran, who is a student nurse there. An animal pen had a buck deer and the buffalo together and the buck broke off an antler in the buffalo's skull. Peterson said "The buck wandered round the pen shaking his head as if he had palsy. He didn't care to be photographed. If either animal needs first aid it's not far away as they're enclosed at Maywood Farm, home of the famous Mayo doctors."

Navajo Chief Credits Win To 'Baby Kissing'

WINDOW ROCK, Ariz. (AP) — The re-elected tribal chairman of the sovereign Navajo nation says the paleface politicians' old-fashioned idea about baby kissing still is worth while.

"It paid off, didn't it?" says Raymond Nakai, 48, of his 1,500-vote victory over Samuel W. Billison, 41, in this week's tribal elections.

The campaign on the sprawling reservation in New Mexico, Arizona and Utah was sometimes stormy. Fisticuffs, broke out during at least one political rally.

But Nakai, during an interview, attributed his victory to kissing babies, shaking hands and hogan-to-hogan stumping. In a more serious vein, he cited his pledges of more social and economic advances for the 110,000 members of the nation's largest Indian tribe.

He said Thursday that unemployment on the 24,000-square-mile reservation is the greatest problem he must cope with in leading the Navajos during the next four years.

One of Nakai's proposed answers to the tribe's problems is spelling out the rights of the Navajo people, including adoption of a tribal constitution.

He explained that while Navajos had constitutional and states' rights, they don't have any rights now through the governing tribal council.

The 74-member council, equivalent to a state legislature, is an "instrumentality to the secretary of the interior," Nakai said.

"The Navajo people would much rather set up their government according to their will, desires and liking," he said. "They want a government they can call their own."

The Navajos, by treaty, are a sovereign nation within U.S. boundaries.

The treaty of 1868 and certain court decisions recognize so-called residual sovereign powers in the tribe, not the council," the one-time radio announcer and World War II Navy veteran said. "I would like to see these residual powers manifested."

The tribal election, which also included the 74 council positions, was held Tuesday and Wednesday. Nakai appeared to be the winner Thursday on the basis of unofficial returns.

Mystery Illness Hits Over 200 U Windsor Students

WINDSOR, Ont. (AP)—A new outbreak of a mysterious illness among University of Windsor students was reported Friday as medical officers sought unsuccessfully to discover the cause.

aForty-two new cases were reported besides the 150 students Wednesday and another 50 Thursday who suffered stomach cramps, nausea, dizziness, vomiting and diarrhea.

Tests of university cafeteria food revealed nothing about the causes of the illness, said John Howie, city medical director. Some 100 food cultures will be examined for traces of bacteria, he said.

Of the new cases, all but six occurred among residents in one of the university's four residence halls.

Howie said that if curent tests reveal no bacteria which could have caused the illnesses, health officials will check on the possibility of a virus epidemic.

None of the victims have been hospitalized, although most have been confined to bed. A few required stomach pumping.

Islands account for one-sixth of Chile's total area.

Economic Oracle Season Is Here

By JOHN CUNNIFF

NEW YORK (AP) — We are approaching now the season of the annual economic outlook, a time when the oracles forecast conditions for the new year. Generally they expect 1967 to be much like 1966.

A forecast that calls for a continuation of existing conditions generally is the easiest to make. It is more difficult to call a turn, to forecast a reversal. And then there are other unnerving factors.

A well-known private economist was offered expert legal advice that persons "pretending to forecast the future" might be deemed criminals under his state's laws and fined $250 and perhaps sent to jail for six months.

He continued, nevertheless, as do thousands of others, to make his forecast.

The first of them, now making the rounds, generally foresee a Gross National Product of $790 billion for 1967. That would mean a rise in the total output of goods and services of $50 billion—an impressive increase.

However, this 7 per cent increase may be a bit illusory, for 4 per cent of it is expected to disappear in inflation. Still, it compares well with about 8½ per cent this year, of which 3½ per cent was inflation.

The oracles this year have several uncertainties before them.

First, if they forecast a continuation of the boom they are forecasting a record upon a record. Already the boom is the largest ever in "peacetime."

A very prominent uncertainty is President Johnson. Some of them blame the President for wrecking their forecasts of a year ago. He should have raised taxes, they say. He didn't. And now they ask: Will he, and if so when, and by how much?

Uncertainties such as these cause some forecasters to speak vaguely. There is, of course, a reason for this. Most take a tip from the Delphic oracle, which in ancient Greece never had to recant because it spoke in riddles.

Those oracles who do speak clearly show their daring only over a short term. Their forecasts often are specific for the first six months of the year. They plead their crystal ball is cloudy beyond that. Therefore, they call for a "slight readjustment" in the second half of the year.

Nevertheless, these economic forecasts are not the amusements they once were. More and more the corporate and government economist is a key man. If he ever was the fellow with the silly charts he isn't now. He is consulted at the decision-making level.

Nuss Quizzed In Two Deaths

ANN ARBOR (AP)—Ralph C. Nuss, 30, charged in the murders of two teen-agers, was questioned Friday in connection with two other killings.

Detective Sgt. Eugene Louw of Toledo, Ohio, questioned Nuss about the death of Robert Joseph Pugh, 32, a school teacher from Pleasant Hill, W.Va.

Pugh's body was found nude and bound with ropes on a creek bank at Toledo Oct. 21. He had been beaten and strangled.

Detective Sgt. Richard Shunk of suburban Warren interrogated Nuss about the death of Allan M. Johnson, 51, at an apartment in Warren.

Johnson's body was found Tuesday, face down on his bed, with his hands tied behind his back with leather belts. He had been strangled.

Nuss, an official of the federal prison at Milan, has been charged by the state with first-degree murder in the death of Tom Brown, 19, of Windsor, Ont.

Brown's nude, bound body was found this week in a creek in a remote area.

A federal first-degree murder charge has been filed against Nuss in the slaying of 17-year-old Arland Withrow of Ypsilanti.

Withdrow's body, also nude and weighted with a concrete block, was found in another creek in a wooded area miles from his home. He disappeared Oct. 16.

The federal charge, filed because FBI agents said the crime took place on federal property, carries a death penalty. Michigan law provides for no death penalty.

Emphysema Rates Fastest Rising Cause Of Death

DETROIT (AP)—Emphysema is the nation's fastest rising cause of death, a panel of medical experts said Friday.

Panel moderator Dr. Geoffrey Brinkman of Wayne State University here said the disease is a rapidly growing problem "unfortunately there's nothing we can do to reverse it."

Emphysema is twice as common as lung cancer and apparently is related to cigarette smoking, he said. Emphysema is a gradual deterioration of lung tissue involving the collapse of the tiny tubes that carry air into the lung.

Brinkman and other panelists spoke before a regional meeting of the American College of Physicians.

"The cause is largely unknown," said Dr. Robert Greene. "But it's probably related to air pollution, especially the self-administered air pollution of cigarette smoking."

He said nine out of 10 emphysema victims are smokers.

Raccoon Sets Church Ablaze

FORT SMITH, Ark. (AP) — A raccoon, his fur coat ablaze, strung a ring of fire around the nearby Enterprise Baptist church, burning the small building to the ground.

Deputy Sheriff Carl C. Coneley said the raccoon leaped out of a trash barrel Friday with his coat on fire a few minutes after a cleaning woman dumped burning debris into the container.

He said the animal ran through grass surrounding the building, setting the grass on fire. The blaze spread to the church.

The fate of the raccoon was not known.

Free World Ships Now Shun Cuba

MIAMI, Fla. (AP) — A sharp decline in shipping from non-Communist countries to Cuba was reported today.

Only seven vessels from these areas touched Cuban ports last month, said Revolutionary Unity an exile organization which watches such movements. It said this is the smallest number since it began keeping count four years ago.

Listed as visiting Cuba in October were three ships from Cyprus, two from Great Britain and two from Greece.

This compares with 17 ships in September. Other October totals: 21 in 1965, 23 in 1964, and 26 in 1963.

Close For Winter

LANSING (AP) — The two northbound lanes of a 14-mile stretch of U.S. 131 north of Mancelona in Antrim County have been closed for the winter, the Highway Commission reports. It said reduced traffic makes it impractical to maintain all four lanes of the divided highway during the winter.
